This amendment is issued to Solicitation number 21C41-187728/A to answer the following questions and to make the following change:

A. Questions from Industry and answers from Canada:

Question 1 – With regards to 12.3 Attachments - Attachments necessary to attach to tractor - Is a pull type planter or 3 point hitch mounted planter desired? If it is 3 point hitch mounted is there weight limitations on the planter?

Response - Pull Type

Question 2 - With regards to 12.4.3 Row Cleaner Unit - Are you looking for pin, screw or pneumatic adjust row cleaners?

Response - A simple pin or screw adjustment would be acceptable.

Question 3 – With regards to 12.4.4 Computer Tracking of Seed Depth - Is what is really desired is population and seed spacing monitoring?

Response - Population, spacing, failures.

Question 4 – With regards to 12.4.5 7010 Markers with 16 in Notched Disks, Depth Gauging Bands and Control independent of planter lift - Since 7010 markers are only available from John Deere, would just regular markers be ok, as long as they are independently controlled?

Response - Yes, independent controls with marker is acceptable.

Question 5 – With regards to Item 8 – After sales service - Would the after sales and service dealer being roughly 300 kilometres away be too far if we could still respond to all service calls with 24 hours?

Response - The servicing must be completed within 24 hours, greater than 300 KM is fine as long as the machine has been serviced within the 24 hour period.

B. Amendments to Annex A Requirement:

Under Annex A – Requirement, Item 12 – Corn Planter delete the following:

.4 Other .5 7010 Markers with 16 In. Notched Disks, Depth Gauging Bands and Control independent of planter lift

And replace with the following:

.4 Other .5 Markers with 16 In. Notched Disks, Depth Gauging Bands and Control independent of planter lift
