Amendment 002

**This amendment is raised for the following reason:
To provide answer(s) to question(s)**

Question 1:

The RFP states if the contract is awarded that it can be renewed for 4 additional 1 year terms. Question, is there an opportunity for both parties to agree or adjust the contract. For example, if a price adjustment was needed, is there a place to do this or is the price locked in for the entire term.

Answer 1:

The all-inclusive firm price are locked for the entire five years period.

Question 2:

The RFP states that there should not be more than 6 supplier aircraft in the circuit at any one time, and no more than 8 supplier aircraft in any mission category at any one time. Does this mean the number of air cadets flying at any one time, or the total number of aircraft dispatched by a school for all programs?

Answer 2:

To minimize risk to students under training, this refers to the total number of aircraft within both the circuit and the practice at any one time for the Cadet programs.

Clarification:

The RFP states that the supplier must have an SMS in place with all training completed in accordance with the DND flight safety program. We are not sure what level of training is expected from DND. What if a school has a well-established safety culture and system, however it is not a full blown SMS which is approved by Transport Canada due to it not being a regulatory requirement.

Response:

The level of training required is outlined within draft Contract Annex A, Statement of Work, Reference E. Transport Canada's Advisory Circular (AC) No. 107-002 *Safety Management System Development Guide for Smaller Aviation Organizations*:

<https://www.tc.gc.ca/en/services/aviation/reference-centre/advisory-circulars/ac-107-002.html>

Bidders may request an equivalency evaluation at time of bid by submitting relevant documentation as per AC 107-002.

All terms and conditions remains the same
