If the answers to the questions and, as applicable, the information have not been received by the time the evaluation of offers is completed, Canada will inform the Offeror of a time frame within which to provide the information. Definitions

For the purposes of this clause,

"former public servant" is any former member of a department as defined in the [Financial Administration Act](#) R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c. S-24 as it affects the PSSA. By providing this information, Offerors agree that the successful Offeror's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2012-2](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

Work Force Adjustment Directive

4. Enquiries - Request for Standing Offer

All enquiries must be submitted in writing to the Standing Offer Authority no later than five (5) calendar days before the Request for Standing Offer (RFSO) closing date. Enquiries received after that time may not be answered.

Offerors should reference as accurately as possible the numbered item of the RFSO to which the enquiry relates. Care should be taken by Offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that Offerors do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Offerors. Enquiries not submitted in a form that can be distributed to all Offerors may not be answered by Canada.

5. Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in the province of Quebec.

The rates specified in the financial proposal, when quoted by the bidder, must not include the cost of the supplies and equipment required to provide health services to CSC offenders (see Annex A, statement of work, article 14. Support to Contractor).

When preparing their financial bid, bidders should review clause 1.2, Financial Evaluation, of Part 4.

Technical Document - IT Security Requirements

Contract N°:	21301-20-2774483
Date :	2018-11-13

IT Security Requirements

The IT Security Requirements are derived from the [Operational Security Standard: Management of Information Technology Security \(MITS\)](#).

The requirements below apply to the above-noted contract and all contractors and external partners therein who access information of PROTECTED level sensitivity and use **PROTECTED IT Equipment** (refer to Appendix A: Definitions).

1. Any suspected loss or theft of PROTECTED IT Equipment containing PROTECTED information must be reported by the Contractor to the Project Authority immediately.
2. All PROTECTED IT Equipment must be located in a space that meets the requirements of an Operations Zone as defined in the [Operational Security Standard on Physical Security](#) and [G1-026 Guide to the Application of Physical Security Zones](#).
3. All PROTECTED information in the Contractor's custody stored, processed and/or shared electronically must be encrypted using a product that meets Government of Canada (GC) encryption standards as defined in [Cryptographic Algorithms for UNCLASSIFIED, PROTECTED A, and PROTECTED B Information](#) and protected by a strong password (minimum 8 characters, uppercase letters, lowercase letters and numbers).
4. All PROTECTED information in the Contractor's custody must be stored in Canada only. Storage of all Government of Canada (GC) information outside Canada is prohibited. Only Canadian-based cloud storage services that are specifically-authorized by CSC may be used to store PROTECTED information; all other cloud services are prohibited.
5. Current antivirus software must be installed and enabled with the most current virus definitions, updates and maintained on all PROTECTED IT Equipment on which it is possible to install antivirus software.
6. The Operating System (OS) and applications used on PROTECTED IT Equipment must be vendor-supported, i.e. current security patches must be available and the product must not have reached end of life, and the latest security patches must be installed.
7. Each authorized user who accesses PROTECTED IT Equipment must use their own unique account with user-level privileges and protect it using a strong password. Computer accounts must not be shared. Computer accounts with Administrator-level privileges must be used for system administration tasks only and must not be used for general user tasks, e.g. surfing the Internet, checking email, accessing OMS.
8. Security event logging must be enabled and logs kept for a minimum of 1 month on all PROTECTED IT Equipment on which event logging is possible.
9. A password protected screen saver set to 15 minutes or less must be enabled on all PROTECTED IT Equipment connected to or including a digital display or monitor.
10. All PROTECTED IT Equipment that is connected to the Internet must reside behind a network router that is securely-configured using industry best practices, e.g. NAT-enabled

firewall, password-protected and documented configuration, security logging enabled, maintained and reviewed, and filtered access.

11. When PROTECTED IT Equipment is no longer required to store or process PROTECTED information, the information stored on the equipment must be securely destroyed in accordance with [IT Media Sanitization](#). Any PROTECTED information stored on approved Canadian-based cloud storage services must also be deleted when no longer needed.
12. All PROTECTED IT Equipment must have its internal data storage devices, e.g. hard drives, removed and secured with the Contractor prior to the equipment being removed from the Contractor's premises for service.
13. If it has been determined that PROTECTED IT Equipment is no longer serviceable, any internal data storage devices, e.g. hard drives, contained in the equipment must be surrendered to the Project Authority for destruction. If the internal storage cannot be removed from its host equipment, the host equipment itself must be surrendered to the Project Authority for destruction.
14. When PROTECTED information is displayed on the screens of PROTECTED IT Equipment or viewed in printed format, it must not be viewable by unauthorized persons.
15. Unless otherwise prohibited, any remote access to PROTECTED IT Equipment using Contractor-provided and/or CSC-provided standard remote access software must be secured using industry best practices, e.g. encrypted connection, two-factor authentication, controlled/restricted access, security logging, split tunneling disabled. All parties using the remote access must also meet all requirements listed in this document.

Additional Security for Connectivity (and other External Partners)

In addition, for contracts where a connectivity requirement has been identified in the SRCL, i.e. "yes" to question 11e, the following IT Security requirements must be met:

- Each Contractor, Contractor's agents, subcontractors, volunteers or any other parties requiring access to PROTECTED information must hold a valid RELIABILITY STATUS security clearance, granted by the CISD of Public Works and Government Services Canada (PWGSC) and have a legitimate need-to-know for the information provided.
- When not in use, all Portable Data Storage Devices containing PROTECTED information must be secured in a security container that meets GC security standards within an Operations Zone.
- All documentation produced or completed by the Contractor which contains PROTECTED information must have its sensitivity labeled in the upper right hand corner on the face of each page of the document. Also, all Portable Data Storage Devices must be labelled with the highest sensitivity level of the information contained therein, e.g. PROTECTED B.

- 2.4 Consistent with its transformation agenda, CSC recognizes that health outcomes are a shared responsibility between service providers and offenders. Offenders must be involved in taking responsibility and proactive measures to safeguard their health, which includes mental health.
- 2.5 In institutional settings, Health Services are provided in ambulatory Health Service Centres in institutions, regional hospitals and regional treatment / psychiatric centres. Incarcerated offenders may have to go to the community for emergency services, specialized health care services and for hospitalization that cannot be accommodated in CSC’s regional hospitals. In CSC, health care is provided by a wide range of regulated and non-regulated health professionals.
- 2.6 In broad terms health care means medical, dental, mental health care and public health services. During the period of incarceration, offenders are provided with a range of coordinated health services that are accessible, affordable, and appropriate to the correctional environment.

3. Objective:

3.1 Provide essential and non-essential mental health services to offenders, as requested by the Project Authority,

Security requirements

If the contractor will be allowed to provide services at his/her business location, and produce or store protected or classified information or data on its IT systems. The contractor will have to obtain a Designated Organization Screening, Document Safeguarding and IT Technology clearances, and personnel security clearance(s).

3.2 Treatment Orientation

The treatment/counselling orientation utilized by Correctional Service Canada (CSC) is cognitive-behavioural. All psychological treatments offered to offenders by the contractors must be evidence-based with known application to offender populations. The principal focus of treatment will depend on the nature of the referral and the offender's needs. Although the usual objectives of treatment include the reduction of risk to reoffend, a priority should also be placed on the amelioration of the offender's mental health and emotional or behavioural functioning, including feelings, attitudes, beliefs and behaviours that moderately to severely impact or interfere with daily functioning. The offender's motivation for the index offence (particularly in cases of sexual offenders) should be addressed in this context.

4. Performance standards:

4.1 The Contractor must take into account gender, cultural, religious and linguistic differences and be responsive to the special needs of women and Aboriginal People.

4.2 Quality Assurance of Psychological Services:

- a. The Contractor must provide all services in compliance with federal and provincial legislation and standards, provincial and national guidelines, practice standards and CSC Policy/Guidelines including the CSC Mental Health Policy and guidelines.
- b. The Contractor must provide services in accordance with the ethical and professional practice standards of the applicable provincial regulatory body, the Canadian Code of Ethics for Psychologists and relevant legislation guiding the practice of Psychology within correctional settings.
- c. The Contractor is expected to consult with the Project Authority to ensure that all psychological practices are consistent with the relevant and most current legislation, practice standards and policies.
- d. On a yearly basis or as determined by the Project Authority, the Project Authority or designate will review a sample of reports to determine if they meet CSC and professional standards for psychological reports. If a report is judged to be substandard, the Contractor must amend the report as requested at no extra cost to the Crown. The amendment must be completed and the amended report submitted to the Project Authority within one (1) week following the date when the amendment was requested.
- e. Timeliness of the submission of all reports will be monitored on an ongoing basis by the Project Authority. Timeliness will form part of the assessment of the Contractor's work.

4.3 The following is a list of key relevant legislation and CSC Policy/Guidelines but should not be considered an exhaustive list. CSC's policies and guidelines can be found on the CSC internet website at www.CSC-SCC.GC.ca or available in hard copy.

4.4 Documentation on CSC health care records:

- a. The Contractor must document all information relevant to the mental health services provided in compliance with relevant legislation, professional standards of practice and CSC's Documentation for Health Services Professionals guidelines. To this end, the client's recordkeeping notes will be requested of the contractor so that they can be filed in the appropriate file.
- b. The Contractor must provide this documentation to the Project Authority or delegate using approved electronic media or methods for placement in the offender's psychology file and, at the request of the Project Authority, the Offender Management System (OMS). Placement of reports on the psychology file and in OMS will normally be carried out by CSC staff. However, the Project Authority may, at his/her sole discretion, request that the Contractor place reports in the offenders' psychology file and OMS.
- c. As an accountability and quality assurance measure, the Project Authority will periodically review the Contractor's documentation for compliance with contract requirements, consistency and completeness.

4.5 Limits of Confidentiality

- a. Most psychological reports will be available to anyone with access to the Offender Management System (OMS), on a need to know basis. As the limits of confidentiality are broad, policy, before interviewing the offender, the Contractor must ensure that the limits to confidentiality have been communicated and that the offender has consented - in writing - to the assessment and/or counselling process.
- b. In community settings, the Contractor must advise offenders of the Contractor's responsibility to report breaches of the law [such as illicit drug use] or violations of release conditions if they become known to the Contractor.
- c. Contractors must use CSC Form 4000-18: Consent to Participate In / Receive Health Services for all cases and ensure that the form, signed by the offender and a witness, is sent to the project manager once completed. The Project Authority will supply copies of this form to the Contractor at the beginning of the contract. Note that the Contractor must document the consent process in all his reports.

4.6 Information Sharing – Psychology Reports

- a. Unless pre-arranged with the Project Authority, the Contractor must share all reports that are written for Case Management purposes (including for the Parole Board of Canada) and/or those that contribute to decision-making with the offender by the author of the report. Correctional Service Canada policy specifies that the author and offender sign and date the report at the time that the report is shared. The Contractor must advise the Project Authority if he/she is unable to share the reports and coordinate signatures with the offender. At the discretion and prior approval of the Project Authority, CSC will assume the information sharing and offender signature responsibility.
- b. In community settings, should the "wait for the offender's signature" compromise the timeliness of the report, the Contractor may forward a dated, hard copy of the report with only the Contractor's signature, provided that a hard copy, signed and dated by both the offender and the Contractor is submitted as soon as possible. In the event that the offender is temporarily detained, unlawfully at large, or has had his/her parole revoked, the Project Authority will assume the information sharing and offender signature responsibility. The Contractor must advise the Project Authority if he/she is unable to

share the reports and coordinate signatures with the offender. At the discretion and prior approval of the Project Authority, CSC will assume the information sharing and offender signature responsibility.

- c. The Contractor must submit all reports in type written format. The Contractor must send a signed hard copy of reports along with an electronic copy on an encrypted USB stick (Microsoft Word compatible) or via an encrypted e-mail to Correctional Service Canada staff designated by the Project Authority. Electronic copies are required for uploading to the OMS and the Health Centre's electronic record.
- d. Completed psychological reports are to be signed by the Contractor, a psychologist registered for autonomous practice with adults in the province of practice. The Contractor assumes all responsibility for report content.
- e. If amendments to reports are requested by the Project Authority, the Contractor will respond to these requests and make amendments to the report as necessary within one (1) week of notification. If the request for an amendment originates with the offender, the institution or unit will facilitate contact between the offender and the Contractor by phone as necessary. However, should the Project Authority determine that the situation requires direct intervention by the Contractor, the Contractor will arrange to interview the offender in person at the institution or unit.

4.7 Handling and Safeguarding CSC Sensitive or Protected Information

- a. For Services provided at the Contractor's Place of Business

With the prior approval of the Government of Canada's Canadian Industrial Security Directorate (CISD) of Public Services and Procurement Canada (PSPC), the Contractor may be allowed to produce or store sensitive or protected information or data, including paper copies of original reports (see article 3 above), at his/her business location and on its IT systems. The Contractor must ensure that any CSC information and/or documents in his/her keeping are handled, transported and stored in accordance with the security and protection of personal information requirements of the contract.

The contractor acknowledges that all documentation provided by CSC remains CSC property and to this effect, he must return all documentation when his services are completed. The client's recordkeeping notes will also be sent to the project Authority so that they can be filed in the appropriate file.

5. Tasks:

- 5.1** The Contractor must provide mental health services to offenders, as requested by the Project Authority, in accordance with the National Essential Health Services Framework including any amendment to this Framework issued by CSC during the contract period and any optional period if and when exercised by CSC. During the contract period, CSC may offer training (for example: orientation to CSC, CSC's risk assessment requirements, etc.). If that was the case, all expenses related to the training, including travel and accommodation, will be at the Contractor's fees.

5.2 Mental Health Counselling and/or Assessment Process in Community Sites

- a. Upon receipt of a referral to perform an evaluation for treatment, when required and requested by the project manager, the Contractor is authorized a maximum of three (3) billable hours for an assessment to determine the offender's suitability for treatment. This three hour maximum is to cover a file review, an assessment interview(s) with the offender, and the time required to prepare a brief Treatment Plan report specific to the individual

offender. If no Treatment Plan is required, the contractor may bill an hour for reading the record at the beginning of care.

- b. The Treatment Plan must include the following as a minimum:
 - i. Tombstone Data;
 - ii. Relevant Background;
 - iii. Offender Presentation;
 - iv. Current Mental Health Status;
 - v. Recommendations to Manage Risk for Self Harm (if applicable);
 - vi. Current Treatment Objectives;
 - vii. Longer Term Treatment Objectives;
 - viii. Risk Management Recommendations.
- c. The Contractor must respond to a routine referral within ten (10) working days; the Contractor must respond to an urgent referral within five (5) working days. The Project Authority will advise the contractor when a referral is urgent. If treatment is not appropriate, the contractor may have to send, at the project manager's request, a signed letter summarizing the assessment and briefly outlining the reasons why treatment is not appropriate. The Contractor must submit this signed letter no later than three (3) weeks after the first Evaluation for Treatment Session. If authorized, this letter will be billable up to a maximum of one (1) billable hour.
- d. Upon submission of a Treatment Plan, (if such a plan was requested), the Project Authority or designate will authorize Contractor to proceed with a predetermined number of sessions. Generally, between 8 and 10 sessions will be authorized. After the last authorized session, the Contractor may, as needed, at the Project Authority's request, have to submit an interim treatment report on the offender's status to communicate to the Case Management Team an updated evaluation of the offender's current emotional/behavioural status, including a brief assessment of clinical factors and the offender's progress toward the current treatment objectives. Project Authority may request these type of reports regularly during treatment. If they are requested, these reports will be billable up to a maximum of one (1) billable hour.
- e. Prior to the last authorized session, the Contractor should contact the Project Authority and seek authorization for additional sessions. The number of additional sessions will be determined by the Project Authority. The Project Authority, Case Management and mental health staff (if available) will review submitted case documentation and make a decision whether to continue treatment on the basis of all input. At the discretion of the Project Authority, the Contractor may attend via teleconference where feasible. Barring operational difficulties, if there is a supportive assessment and the Contractor believes it appropriate, the Project Authority may authorize further treatment. The decision to continue treatment will be based on clinical and risk factors, but the final decision remains with the Project Authority. The Contractor is required to contact the Project Authority to advise that the number of authorized sessions have been reached. Then, a formal or informal case review will be carried out prior to further treatment authorization being given by the Project Authority or designate. To avoid disruption in service, the Project Authority or designate may provide treatment authorization via fax or encrypted e-mail. Unauthorized treatment sessions will not be remunerated. When case reviews involve the contractor's participation, a maximum of one (1) hour may be invoiced for these case reviews;
- f. At the Project Authority's or designate's request, the Contractor must provide feedback and consultation to the Parole Officer, Parole Officer Supervisor or the Mental Health Team via brief informal telephone contact, case review meetings, or individual case conferences.
Brief informal telephone contacts are not billable;

- g. In addition to the Case Review, circumstances may demand that a case conference be held. The Project Authority will decide whether a formal case conference will be held, and will advise the Contractor. A case conference may be held with or without the offender being present, as determined by the Case Management and Mental Health Teams, in consultation with the Contractor. The following individuals may participate in the case conference, as required: the contractor, the parole officer, the parole officer supervisor, the program officer, the social worker, the mental health nurse and the Chief, Mental Health. Upon prior approval by the Project Authority, the Case Management Team will be responsible for scheduling the case conference. - j. Termination of treatment may occur without notice when the offender's release is suspended. On termination of treatment (including, but not limited to, formal discharge, transfer to another District, revocation, etc.) the Contractor may, at the project manager's request, have to submit a Final Treatment Report. Delay to submit final reports may vary but will generally be within ten (10) working days. The Final Treatment Report is billable up to a maximum of one (1) billable hour;
- k. Termination of treatment may occur at any time the Contractor deems that the offender is not benefiting from counseling. The Contractor may recommend discharging the offender after consulting with the Project Authority, Community Chief Psychologist, other delegated psychologist / Parole Officer Supervisor. Upon approval by the Project Authority or designate of the termination of treatment, the contractor may, at the project manager's request, have to complete a Final Treatment Report. Delay to submit final reports may vary but will generally be within ten (10) working days. In any case, Project Authority will specify the delay to the Contractor. Note that offender often have a special condition where psychological counseling is mandatory to their release. In such cases, end of treatment may be delayed while waiting for the Parole Board approval to end treatment. Project authority will discuss with the Contractor the way forward in those circumstances.
- l. Correctional Service Canada offenders undergo several batteries of vocational, educational, and psychological tests at various periods of their incarceration, and prior to being released into the community. If possible, the results of these tests will be made available to the Contractor. Given this, the Contractor may recommend additional testing to complete the Assessment for Treatment. The Project Authority must authorize any additional testing in writing before the Contractor proceeds. The Contractor must submit to a brief treatment rationale for the testing, list naming the tests to be administered, and the total cost preparing a vocational, educational, and/or other psychological assessment the Project Authority. Any testing/assessment not authorized in advance will not be remunerated. Should the offender display a pattern of cancelling more than one appointment, the Contractor must report this pattern to the Project Authority within five (5) days of the second rescheduled appointment. The Contractor can bill a fee of fifty (50) percent of a billable hour for missed appointments. The Contractor must notify the Project Authority of the missed appointment(s) within one (1) business day in order to request any compensation for missed appointments.

ANNEX C – CALL-UP PROCEDURES

1. Principle

The principle of the right of first refusal applies to the Standing Offer when granting the call-ups. Considering the fact that the East-West Quebec District (EWQD) represents a large territory, accessibility to psychology services will be the first criteria of choice in awarding call-ups. Therefore, the identified user must contact the psychologist practicing the closest to the offender's place of residence.

In the event where two offerors' practice offices are located at equal distance of the offender's place of residence, the call-up must be awarded to the offeror self-identified as experienced in the particular competency related to the treatment need of the offender.

At equal distance and particular competency, the Contractor who provide the lowest hourly rate will be selected to provide the services.

At equal distance, particular competency and hourly rate, the Contractor self-identified as experienced in the most diversified competencies will be awarded the call-up (see Annex H – Criteria for establishing the competencies).

N.B.: The Offeror contacted must consider their workload and ensure they are able to respond to the request within the required deadline

2. Call-up procedure

2.1 Identification of the offeror

For a given requirement, the user must consider the following decision factors in selecting an offeror:

- **The location of the Contractor's practice office**

Once this determination is made, the offeror with the practice office located the closest to the offender's place of residence will be considered first.

In the event of a tie between two offerors regarding the decision factor above, the user must consider the following:

- **The particular competency related to the treatment need of the offender**
- **The hourly rate**
- **Diversity of competencies**

2.2 Communication as needed

The user will contact the Offeror which has the practice office located the closest to the offender's place of residence, by fax or email.

2.3 Time limit

The offerors contracted will have time indicated by the user to confirm whether they can respond to the call-up. The time limit is at the user's discretion but must be indicated on the request.

2.4 Handling the response

If the offeror is unable to respond, or if no response is received by the identified user, the identified user will move on to evaluating the offeror ranked second highest, and so forth.

When the offeror who is in first place cannot meet the requirements, the identified user must take particular care to document the file.

ANNEX D – INSTRUCTIONS FOR DESIGNATED USERS

1. Principle

For any call-up, the identified user's file must be well documented.

2. Service evaluation – usage report by the identified user

The identified user may send a report to the standing offer authority on the use made of the standing offer and the evaluation of the services rendered.

In the report, identified users must provide information on satisfactory RISO holders, who provide high-quality services and on unsatisfactory RISO holders who can never provide assessment or whose assessments are not acceptable, including cases where assessments were rejected due to a performance that did not comply with Annex A – Statement of work. The form 0996 – *Contract/Contractor Evaluation* must therefore be used for this purpose.

The identified user must immediately report any cases of inefficiency to RISO holders.

If the issue cannot be addressed by the RISO holders, the identified user must seek the help of the person in charge of the RISO. This will give the RISO officer an opportunity to undertake whatever other corrective measures are required, given the circumstances.

3. Reminder about call-ups

For a given requirement, the identified user must:

Document: Document the requirement, draft the requirement. All processes must be documented, from the requirement formulation to responses, acceptances or rejections, as well as specified deadlines.

Contact: The requirement should be sent to the selected offeror for the mandate.

ANNEX F – INSURANCE REQUIREMENTS

1. Commercial General Liability Insurance

1.1 The Contractor must obtain Commercial General Liability Insurance, and maintain it in force throughout the duration of the Contract, in an amount usual for a contract of this nature, but for not less than \$2,000,000 per accident or occurrence and in the annual aggregate.

1.2 The Commercial General Liability policy must include the following:

- a. Additional Insured: Canada is added as an additional insured, but only with respect to liability arising out of the Contractor's performance of the Contract. The interest of Canada should read as follows: Canada, as represented by Public Works and Government Services Canada.
- b. Bodily Injury and Property Damage to third parties arising out of the operations of the Contractor.
- c. Products and Completed Operations: Coverage for bodily injury or property damage arising out of goods or products manufactured, sold, handled, or distributed by the Contractor and/or arising out of operations that have been completed by the Contractor.
- d. Personal Injury: While not limited to, the coverage must include Violation of Privacy, Libel and Slander, False Arrest, Detention or Imprisonment and Defamation of Character.
- e. Cross Liability/Separation of Insureds: Without increasing the limit of liability, the policy must protect all insured parties to the full extent of coverage provided. Further, the policy must apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.
- f. Blanket Contractual Liability: The policy must, on a blanket basis or by specific reference to the Contract, extend to assumed liabilities with respect to contractual provisions.
- g. Employees and, if applicable, Volunteers must be included as Additional Insured.
- h. Employers' Liability (or confirmation that all employees are covered by Worker's compensation (WSIB) or similar program)
- i. Broad Form Property Damage including Completed Operations: Expands the Property Damage coverage to include certain losses that would otherwise be excluded by the standard care, custody or control exclusion found in a standard policy.
- j. Notice of Cancellation: The Insurer will endeavour to provide the Contracting Authority thirty (30) days written notice of policy cancellation.
- k. If the policy is written on a claims-made basis, coverage must be in place for a period of at least 12 months after the completion or termination of the Contract.
- l. Owners' or Contractors' Protective Liability: Covers the damages that the Contractor becomes legally obligated to pay arising out of the operations of a subcontractor.
- m. Litigation Rights: Pursuant to subsection 5(d) of the *Department of Justice Act*, S.C. 1993, c. J-2, s.1, if a suit is instituted for or against Canada which the Insurer would, but for this clause, have the right to pursue or defend on behalf of Canada as an Additional Named Insured under the insurance policy, the Insurer must promptly contact the Attorney General of Canada to agree on the legal strategies by sending a letter, by registered mail or by courier, with an acknowledgement of receipt.

For the province of Quebec, send to:

*Director Business Law Directorate,
Quebec Regional Office (Ottawa),
Department of Justice,
284 Wellington Street, Room SAT-6042,
Ottawa, Ontario, K1A 0H8*

A copy of the letter must be sent to the Contracting Authority. Canada reserves the right to co-defend any action brought against Canada. All expenses incurred by Canada to co-defend such actions will be at Canada's expense. If Canada decides to co-defend any action brought against it, and Canada does not agree to a proposed settlement agreed to by the Contractor's insurer and the plaintiff(s) that would result in the settlement or dismissal of the action against Canada, then Canada will be responsible to the Contractor's insurer for any difference between the proposed settlement amount and the amount finally awarded or paid to the plaintiffs (inclusive of costs and interest) on behalf of Canada.

2. Medical Malpractice Liability Insurance

1. The Contractor must obtain Medical Malpractice Liability Insurance, and maintain it in force throughout the duration of the Contract, in an amount usual for a contract of this nature, but for not less than \$1,000,000 per loss and in the annual aggregate, inclusive of the defence costs.
2. Coverage is for what is standard in a Medical Malpractice policy and must be for claims arising out of the rendering or failure to render medical services resulting in injury, mental injury, illness, disease or death of any person caused by any negligent act, error or omission committed by the Contractor in or about the conduct of the Contractor's professional occupation or business of good samaritan acts.
3. If the policy is written on a claims-made basis, coverage must be in place for a period of at least twelve (12) months after the completion or termination of the Contract.
4. Notice of Cancellation: The Insurer will endeavour to provide the Contracting Authority thirty (30) days written notice of cancellation.

- Mandatory Technical Criteria

It is **imperative** that the offer **address each of these criteria** to demonstrate that the requirements are met.

1.2 LISTING EXPERIENCE WITHOUT PROVIDING ANY SUBSTANTIATING DATA TO SUPPORT WHERE, WHEN AND HOW SUCH EXPERIENCE WAS OBTAINED WILL RESULT IN THE STATED EXPERIENCE NOT BEING CONSIDERED FOR EVALUATION PURPOSES.

1.3 All experience must be strictly work-related. Time spent during education and/or training will not be considered, unless otherwise indicated. (*does not apply*)

1.4 Experience must be demonstrated through a history of past projects, either completed or on-going.

II. Offerors are also advised that the month(s) of experience listed for a project or experience whose timeframe overlaps that of another referenced project or experience will only be counted once. For example: Project 1 timeframe is July 2001 to December 2001; Project 2 timeframe is October 2001 to January 2002; the total months of experience for these two project references is seven (7) months.

III. For any requirements that specify a particular time period (e.g., 2 years) of work experience, CSC will disregard any information about experience if the technical offer does not include the required month and year for the start date and end date of the experience claimed.

IV. CSC will also only evaluate the duration that the resource actually worked on a project or projects (from his or her start date to end date), instead of the overall start and end date of a project or a combination of projects in which a resource has participated. *(does not apply)*
