Bid Solicitation No: 5000039908/B Amendment No. 001

This amendment to bid solicitation 5000039908/B is issued to address queries received:

Questions and Answers

Q1: We require some more details regarding the substances that must be tested for. Page 23 of the RFP contains a table (Table 1: Substances and other substances to be included) that lists the substances that need to be tested for. We are currently communicating with a lab about whether or not they would be able to conduct the testing, and how much it might cost. They have told us that in order to prepare a cost estimate, they need to better understand what the RFP refers to regarding the following three categories:

- Hindered phenols multiple CAS#s;
- Metals multiple CAS#s; and
- Organotins multiple CAS#s.

They have indicated that they need to know how many CAS #s will be involved with each of the above substance categories, and what those CAS #s might be.

A1:

Hindered Phenols:

For Hindered Phenols, the following CAS #s are to be included:

Phenol, 4,4'-thiobis[2-(1,1-dimethylethyl)-5-methyl Phenol, 2,6-bis(1,1-dimethylethyl)-4-methyl CAS 96-69-5
 CAS 128-37-0

Metals:

Metal scans are a very common test run by labs and are usually run as a group (i.e. multiple substances for the same price) but the following metals must be included at minimum:

- Aluminum (CAS 7429-90-5)
- Arsenic (CAS 7440-38-2)
- Boron (CAS 7440-42-8)
- Cadmium (CAS 7440-43-9)
- Copper (CAS 7440-50-8)
- Chromium (CAS 7440-47-3)
- Iron (CAS 7439-89-6)
- Lead (CAS 7439-92-1)
- Manganese (CAS 7439-96-5)
- Mercury (CAS 7439-97-6)
- Nickel (CAS 7440-02-0)
- Selenium (CAS 7782-49-2)
- Zinc (CAS 7440-66-6)

Additionally, all results obtained from laboratories analysis must be made available in the report for all substances tested as part of the group.

Organotins:

ECCC has decided to remove Organotins from the list of substances to be tested.

Furthermore, if certain substances were to be excluded from the analysis for any reason, it should be clearly stated in the proposal and a rationale should be provided.

All other terms and conditions remain the same.
