Call for Proposals (Call 002) EN578-170003/C

**Attachment #3
Question and Answer #2**

This document contains questions and answers related to the Call for Proposals.

Question #2:

During the Phase-1 project, can we include a task to assess the commercial viability?

Can the activities to conduct the commercial viability, such as accessing the market reports, analyzing the market, be considered as eligible cost for Phase-1 project?

Answer #2:

Commercial viability expenses associated with the goods, services or both being acquired under the Contract must not be included as a task. The expenses for conducting market viability are to be calculated as part of overhead costs.
