Amendment 03

This amendment is being raised to distribute questions and answers.

A) QUESTIONS AND ANSWERS

Q3 Under Work Restrictions 1.10.2, the documents say that up to 35 Ton off-road hauling equipment will be permitted to haul material from Mount Vaux to the Through Cut Roadside Deposit Site but that the trucks can only travel outside the extents of the asphalt except to cross the highway to the embankment. How is this achievable when there is approximately 600 meters of paved shoulder along the high embankment between Mount Vaux (East) and Big Topple? According to paragraph 1.10.3 only legal highway loads for standard highway trucks can be used.

A3 In addition to Section 01 14 00 Clause 1.10.2, up to 35 ton off-road hauling equipment will be allowed on the Eastbound paved shoulder from Km 115.800 to Km 116.150. The Contractor shall be responsible for any improvements required for the haul and must reinstate the site to pre-construction conditions and repair any damage. No additional payment will be made for this work.

Q4 Between Mount Vaux Rock cut and Through Cut roadside deposit site there are multiple road sections that do not have an unpaved shoulder for off road hauling equipment to drive on as per 1.10.2.3. Please clarify what route off road hauling equipment may take to the through cut roadside deposit site.

A4: See Amendment 3, A3 above.

All other terms and conditions remain unchanged.
