Description of Work:

Health Canada requires the services of four (4) B.5 Business Process Re-Engineering Consultants – Level 3.

1. Introduction

The Regulatory Operations and Regions Branch (RORB) delivers quality compliance and enforcement, and complementary scientific programs to inform and protect Canadians from health risks associated with products, substances and the environment. As a science-based regulator, we play a stewardship role that seeks to combine the best evidence with the most effective tools to protect and promote the health of all Canadians through regulatory and policy expertise that are trusted in Canada and internationally.

2. Objective

With the objective of modernizing business processes to fully support regulatory responsibilities, improve user experience, and improve customer service for its clients and stakeholders; Health Canada has a requirement for up to four (4), TBIPS B.5 Level 3 - Business Process Re-engineering Consultants to support the application development across the department on an “as and when required” basis.

3. Information

Work will be requested by Task Authorizations (TA) issued against the Outline Agreement resulting from this RFP process

Bidders must submit one bid for four (4) resources

The work is not currently being performed by a contractor

Security Requirement:	Common PS SRCL #6 applies
Minimum Corporate Security Required:	None
