Amendment #5 is issued to answer site visit and potential bidder's questions. Also attached are four IT drawings that show cable tray locations as well as the drawings with the new room numbers

**Question #1:**

Main RFP document: section I Technical Bid contradicts Appendix B CDRL in that it requests these documents with the bid submission, rather than following contract award. Could you please clarify ?

**Answer #1:**

CDRL documents are due as outlined in the table. Not as part of the bid package.

**Question #2:**

Appendix B CDRL: please confirm Sample Acceptance Test Plan is not required with bid submission, as per table provided.

**Answer #2:**

See question/answer #1

**Question #3:**

On the 3rd floor what is the floor box, type of connector ?

**Answer #3:**

The floor box, type of connector on the 3rd floor is not known at this time. Presume "Keystone" type jack.

**Question #4:**

Who's scope is to supply the AV Racks for telecom rooms? If in the av contractor's scope what is the required specifications of these racks?

**Answer #4:**

AV Contractor to provide (supply and install) rack. Middle Atlantic BGR-45SA-27LRD or equivalent.

**Question #5:**

Is the quantity provided for the audio processors and their accessory cards the exact quantity we are required to bid or should we configure the number of cards and processors according to functionality?

**Answer #5:**

AV Contractor is responsible to provide a fully operating system. Provide quantity of cards and processor to suit functionality.

**Question #6:**

With regards to the most recent amendment to solicitation 40021-181639 , specifically question #3 "alternative models" I was curious if given that alternative models will be accepted, would I be able to propose the Infocus MondoPad? Please see the attached brochure and kindly let me know if this would be acceptable.

**Answer #6:**

Yes

**Additional Information:**

Did we specify a minimum size for these alternative models? Yes. We stated in one of our amendment answers that we accept "display size noted or +5" in diagonal".

Did we specify that they were to be wall-mounted rather than on movable stands? Yes. The RFB does indicate that they are to be on the wall-mounted. During the site visit, they saw the actual backing where they are to be installed.

**Question #7:**

"In their technical bid, Bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

The Contractor must provide all system engineering and design necessary to develop the complete systems described herein. Engineering and design must include preparation of all electronic schematics, hardware drawings, systems diagrams, schedules and lists as per Contract Data Requirements List (CDRL). These documents must be provided in soft copy (E-post, CD, DVD or USB key) at the time of bid.

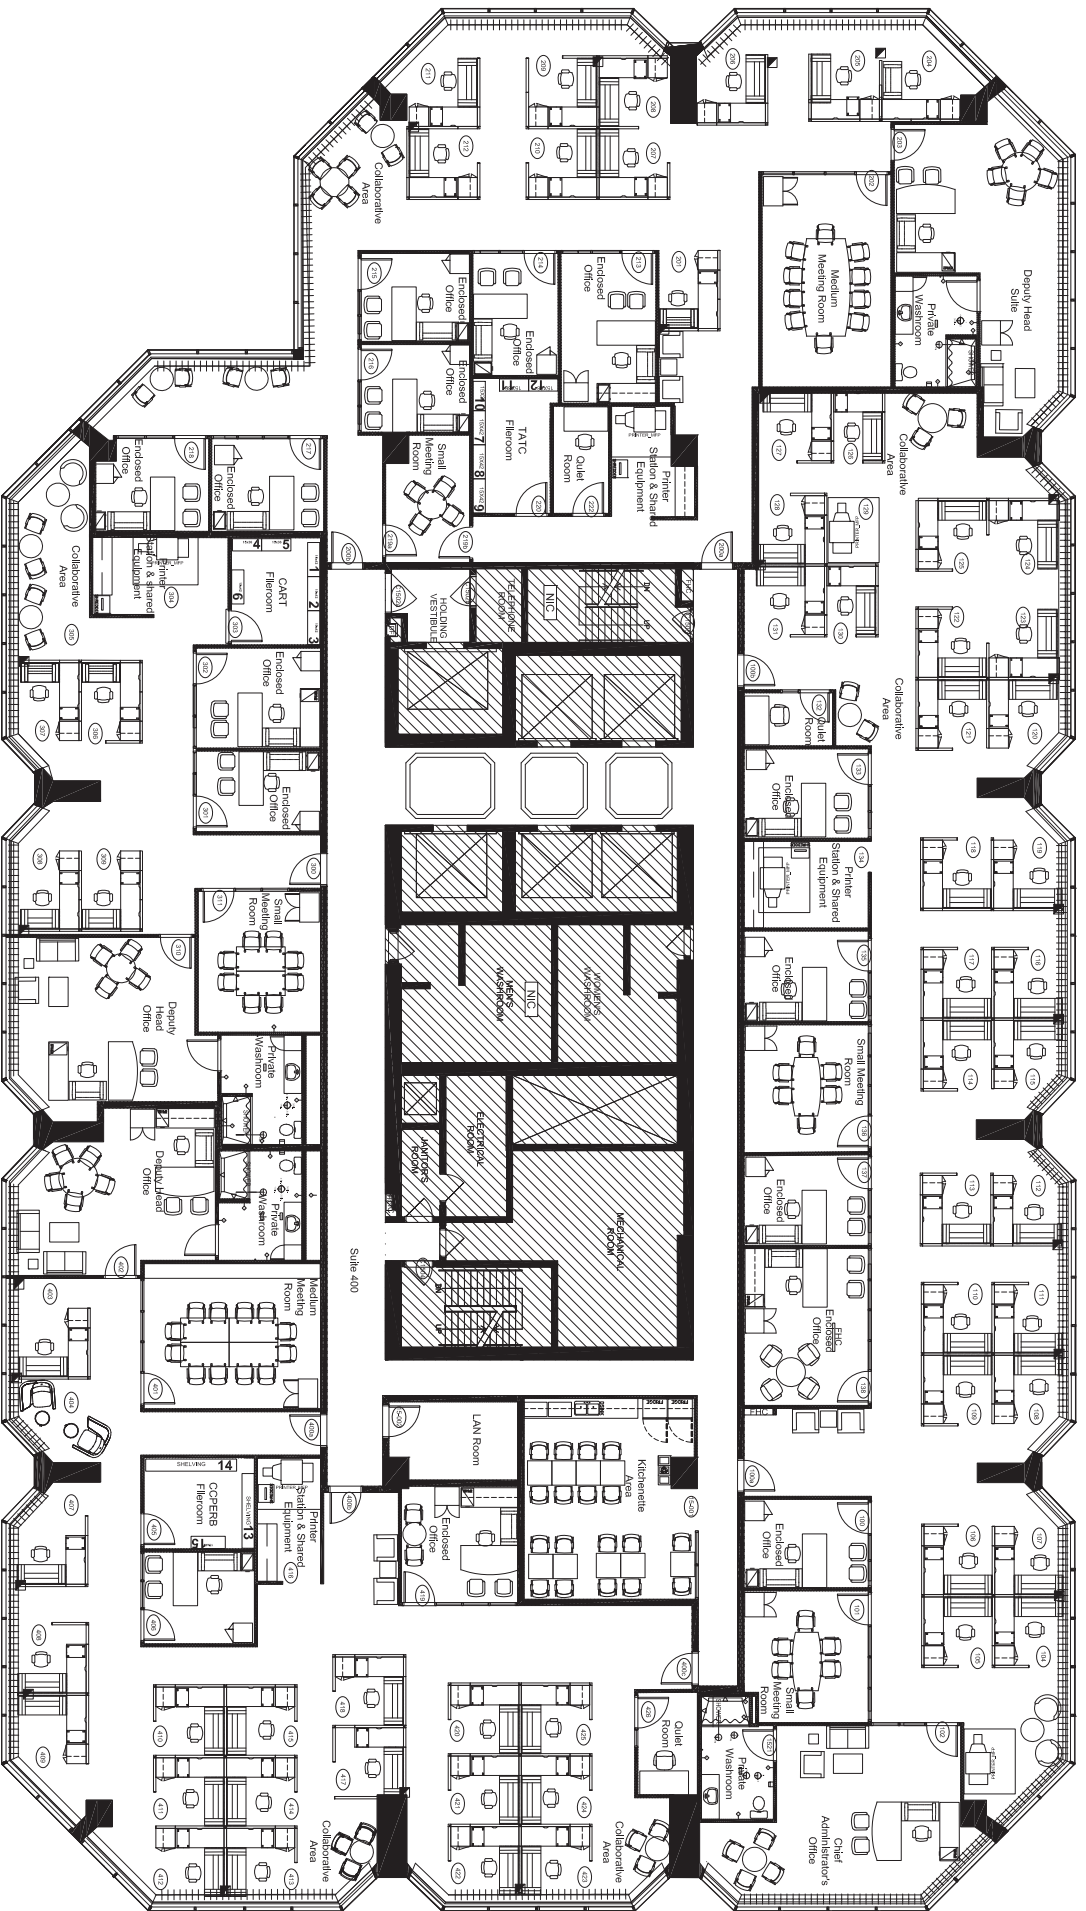

From the excerpt above, it is clear what the winning "Contractor" has to provide as part of a contract, however, what is a bidder expected to provide to comply with this section?"

**Answer #7:**

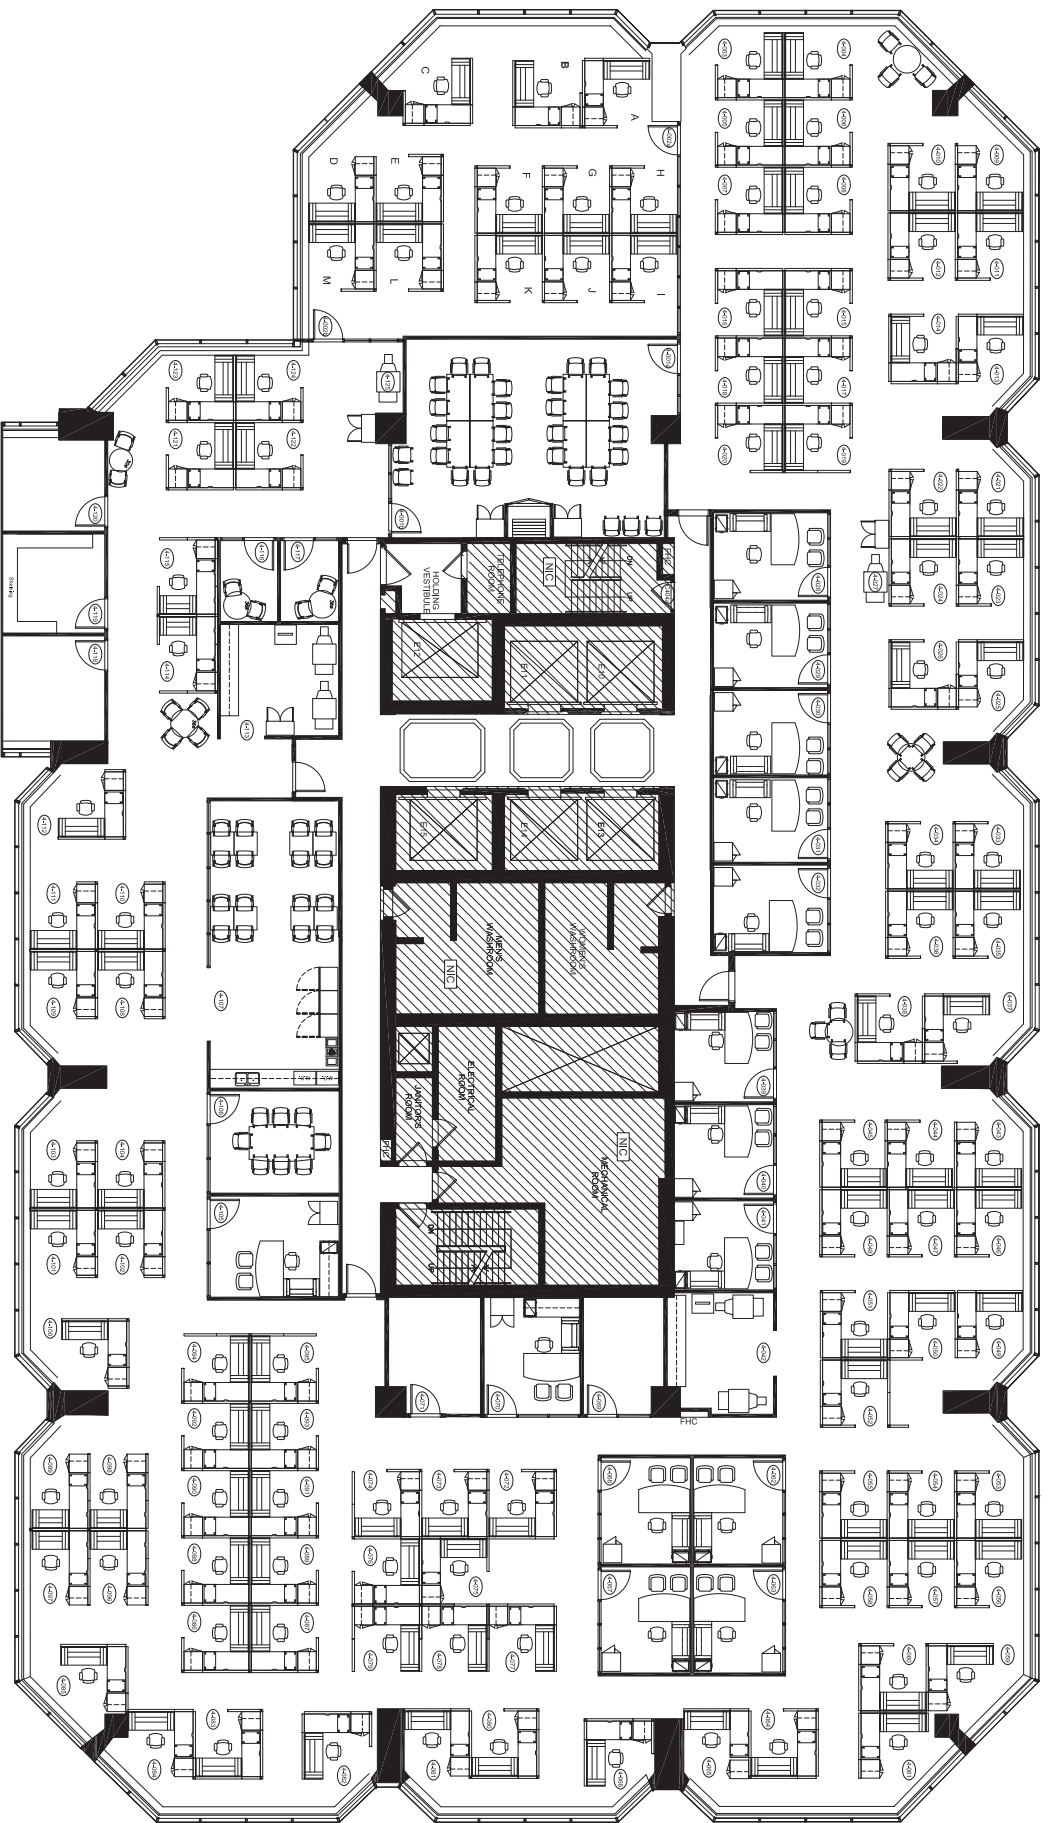

This is a delivery requirement, only the winning bidder has to deliver this.

All other terms and conditions remain the same
