1.2 DEFINITIONS

- .1 Time-weighted average exposure limit (TWAEL): the time-weighted average airborne concentration of a biological or chemical agent to which a worker may be exposed in a work day or work week as prescribed by O.Reg. 490/09 Designated Substances, as amended.

1.3 RELATED SECTIONS

- .1 Not used

1.4 DESIGNATED SUBSTANCES

- .1 Confirm with the Departmental Representative that no additional designated substances have been brought to the project area prior to beginning work. Additional designated substances and hazardous materials may exist outside the accessible survey area but are beyond the scope of this project.

Should any additional material, suspected to be a designated substance, be encountered within the project area, any disturbance of such material must be stopped, precautionary measures taken, and the Departmental Representative must be notified immediately. Do not proceed until written instructions have been received.

- .1 ACRYLONITRILE: Not Identified
- .2 ARSENIC: Not Identified
- .3 ASBESTOS: Not Identified

Based on the analytical sample results, the yellow mastic beneath the elevator cab vinyl sheet flooring, and the dark blue vinyl sheet flooring in the project area, do not contain regulated amounts of asbestos.

- .4 BENZENE: Not Identified
- .5 COKE OVEN EMISSIONS: Not Identified
- .6 ETHYLENE OXIDE: Not Identified
- .7 ISOCYANATES: Not Identified
- .8 LEAD: Not Identified

Laboratory analysis results indicate that the yellow paint bulk sample collected on the elevator interior plywood wall, and the blue paint collected on the elevator interior entrance door wall, at the OPMPC building, have a lead content below the 90ppm threshold that defines a lead-containing paint in the Canada Consumer Product Safety Act's Surface Coating Materials Regulations.

- .9 MERCURY: Not Identified
- .10 SILICA: Not Identified
- .11 VINYL CHLORIDE MONOMER: Not Identified
- .12 POLYCHLORINATED BIPHENYLS (PCBS): Not Identified
- .13 OZONE DEPLETING SUBSTANCES (ODS): Not Identified

1.5 RECOMMENDATIONS

- .1 There were no designated substances identified at the time of the site visit, so there are no recommendations provided.
