Solicitation Amendment 003

Question 1 - Electrical

This section specifies 19/22 kW. 19 Kw = 25 hp, 22 kW = 30 hp.

It appears to be inconsistent with the above 30Hp minimum under "Drive System". Also, as above can you eliminate this requirement as it is not relevant due to the gear reduction systems used in the specific shredder?

Answer: No, we can't eliminate this requirement.

Question 2 – ELECTRONIC SCRAPS

Under Annex A - Minimum Performance Specifications "standards"

The shredder requirements it states that the shredder will need to size reduce electronic scraps. Are we looking at computer hard drives? If yes how many hard drives per hour will the shredder need to keep up with. Also it states other miscellaneous products. Can you tell me what these other miscellaneous product are. Would you be able to supply us with some photos of these miscellaneous materials?

Answer: Plastic and metal wiring, computer hard drives nothing large (basically the small items that cannot be returned as E-waste or thru IT section)
