Amendment 005

Please be advised that if bidders have already sent their bids, they will have to modify it. They can send an amendment of their bid prior to the date and time specified at page 1 of this amendment by clearly identifying the Solicitation No.

Please bring the following changes to the invitation to tender:

The purpose of this amendment (005) is:

- A) Answers to bidders' questions
 - B) Make changes to the Request for a Standing Offer
 - C) Amend Annex C - Basis of Payment
-

A) Answers to bidders' questions

Question 1:

As the bidders must include DDP freight in the unit prices in Appendix C – Basis of Payment – Standing Offer Items 1 through 5 in order to be paid for freight costs when the unit price is used to purchase lights on a call up, why is there also a requirement to provide the freight for 150 lights to Quebec City and to Prescott in section 9?

Answer 1:

The DDP delivery is for each call-up against the Standing Offer and delivery charges must be shown on each invoice of the Contractor on a separate line, on the invoice. In this way, the unit prices will be identified separately for the ordered equipment and delivery charges identified separately also, which may vary according to each call-up.

Quantities listed in Section 9 are estimated and may represent a call-up. Section 9 of the Basis of Payment of Amendment 002 has been modified by the Basis of Payment contained in Amendment 005.

Question 2:

As there is no way for Canada to bill the bidder for the freight amounts listed in Section 9 Appendix C – Basis of Payment – Standing Offer what incentive is there to provide an accurate number? Especially considering these freight values will be used to generate the "TOTAL" price which is used to calculate the "pricing score" that helps determine if a bidder is awarded the standing offer?

Answer 2:

See Answer 1.

Question 3:

Answer 3 in Amendment 4 has flawed logic in that it indicates "the price for a delivery of the same quantity to Quebec or Prescott or both if you can deliver to both places." And then says "You must specify a delivery price for each city". Which is it Quebec City or Prescott or is it both locations? This is very important as these freight values are used to create the "Total Price" which is used to determine the "pricing score" which helps determine who is awarded the standing offer.

Answer 3:

We offer suppliers the choice to deliver to one destination or another, or both, if they are able to deliver to both locations. If suppliers cannot deliver to Prescott **and** Quebec, but only to one location, they will quote a price for the city chosen according to the table provided by city.

B) Make changes to the Request for a Standing Offer
