- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation;

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process Policy on Green Procurement (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, Bidders should:

- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.
- 3) Green Initiatives (for PWGSC information only)
Bidders are requested to provide details of their policies and practices in relation to the following initiatives:
 - environmentally responsible manufacturing;
 - environmentally responsible waste disposal;
 - waste reduction;
 - packaging;

 - recycling.

Section I: Technical Bid

Section III: Certifications

Bidders must submit the certifications and additional information required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION**4.1 Evaluation Procedures**

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.
- (c) The evaluation team will determine first if there are two or more bids with a valid Canadian Content certification. In that event, the evaluation process will be limited to the bids with the certification; otherwise, all bids will be evaluated. If some of the bids with a valid certification are declared non-responsive, or are withdrawn, and less than two responsive bids with a valid certification remain, the evaluation will continue among those bids with a valid certification. If all bids with a valid certification are subsequently declared non-responsive, or are withdrawn, then all the other bids received will be evaluated.

4.1.1 Technical Evaluation**4.1.1.1 Mandatory Technical Criteria****Pre-Award Sample(s) and Supporting Documentation**

As part of the technical evaluation, to confirm a Bidder's capability of meeting the technical requirements, one (1) pre-award sample of the item and test results must be included with the bid.

If any supporting documentation is missing, the Contracting Authority will inform the Bidder in writing and provide the Bidder with two (2) working days from the request to submit the missing documentation. Failure to submit the pre-award sample or the supporting documentation within the specified timeframe will result in the bid being declared non-responsive.

The sample submitted by the Offeror will remain the property of Canada.

Fabric requirements - One (1) meter in length, full width must constitute a pre-award sample.

The Bidder must ensure that the required pre-award sample is manufactured in accordance with the technical requirement and is fully representative of the bid submitted. Rejection of the pre-award sample will result in the bid being declared non-responsive.

The Bidder must deliver the required pre-award sample and test results at no charge to Canada and must ensure that it is received with the bid at time and place of bid closing. Failure to submit the required pre-award sample and test results within the specified time frame will result in the bid being declared non-responsive. The sample submitted by the Bidder will remain the property of Canada.

Laboratory analysis of the product offered showing complete test results of physical properties (except for the color) detailed in the technical requirement of the Annex B must be provided with the pre-award sample. Testing must be performed by an independent accredited laboratory establishment and must be in accordance with the test methods detailed in the Annex B. The laboratory report and test results must be dated within 12 months of the Request for Proposal posting date.

The pre-award samples will be evaluated for quality of workmanship and conformance to specified materials and measurements. (Except for substitutions as indicated below)

If the tenderer is unable to provide a sample in the desired color in time, he can use a different color, he must enclose with the pre-award sample, a letter indicating the substitution of color and a statement which, should it win the contract, the color would be strictly in accordance with the technical requirements.

The requirement for a pre-award sample and test results will not relieve the successful bidder from submitting sample and test results as required by the contract terms or from strictly adhering to the technical requirement of this Request for Proposal and any resultant contract.

4.1.2.1 Mandatory Financial Criteria
