Description of Work:

Health Canada requires the services of four (4) I.1 Data Conversion Specialist – L2.

1. Introduction

HPFB reviews, regulates and approves the use of thousands of health products and foods vital to the health and well-being of Canadians. As a science-based regulator, we play a stewardship role that seeks to combine the best evidence with the most effective tools to protect and promote the health of all Canadians through access to safe, high quality health and food products and clear health information that is trusted in Canada and internationally.

2. Objective

Health Canada is moving towards new data exchange standards to align with international standards and to provide product labeling that preserves human readability and facilitates machine processing. Under the Investment Plan Initiatives, several improvements will be made to overall efficiencies allowing the Department to better protect the Health of Canadians.

Within these projects, common requirements have arisen particularly in the regulatory modernization and managing document mark-up standards.

Health Canada requires the services of experienced Data Conversion Specialists to facilitate the conversion of unstructured documents and data to structured formats using health informatics standards and controlled vocabularies on an “as and when required” basis.

3. Information

Task Authorizations (TA) will be issued against one (1) Service Outline Agreement to support the various Investment Plan initiatives

Bidders must submit one bid for two dedicated resources but requirement is up to four (4)

****The work is not currently being performed by a contractor****

Security Requirement: Common PS SRCL #06 applies
Minimum Corporate Security Required: None

Minimum Resource Security Required: Enhanced Reliability

Contract Authority
