## **6. Questions from bidders and response from Canada**

Would Canada consider removing the CDMN/LCSS TacNet from the Mandatory Technical Criteria?

### **Response from Canada:**

The tasks required are not general domain tasks and are dependent on CDMN/LCSS TechNet specific knowledge. In order to generate the desired deliverables specific knowledge is required of the software, support requirements, and the manner that those military specific components are interlaced. It is our stance that someone with only a general domain knowledge would produce a demonstrably inferior product that would struggle to meet our needs. will not be permitted under any resulting contract.
