The following questions has been submitted for the Laser Engraver.

1- **Reference:** item #8, Mandatory Specifications and Components, Annex A, Cylindrical Attachment Capable of Holding Objects minimum 18 inch in Length and 4 inch in Diameter. Maximum 32 inch in Length and 6 inch in Diameter.

Question: Could you please clarify if this requirement refers to the capacity of the engraving machine or the work pieces that are being used? For example, does an engraving machine with the capacity to engrave a 20" in length and 5" diameter at most acceptable to Canada? What is the maximum dimensions of the workpieces that are going to be used in this machine?

Answer: the maximum dimensions of the work pieces would require engraving up to 20 ½ inch mark. The overall length of the barrels that require engraving are 45 inch and weigh 28 lbs.
