This Amendment #005 is raised to address bidder questions.

Q1: There is no Quarry site defined on the drawings, can one be defined or are we responsible for finding a spot onsite to use?

A1: The Contractor is responsible for sourcing construction materials which may or may not come from onsite. The Contractor is responsible for obtaining necessary permits and approvals from the authority of jurisdiction for such material.

Q2: Is the intent of the quarry development item to provide the capping rock for the project?

A2: The intent is to meet specification requirements which may or may not require quarry development.

Q3: Can you define what we are to include in the general conditions item?

A3: It is the Contractors responsibility to include necessary items.

All other terms and conditions remain unchanged.
