This Amendment 001 is raised to answer a Bidders' question.

Question 1:

Will the winner of the contract be able to measure the equipment itself and have the equipment during the manufacturing of the first case (Prototype) to ensure the optimal fit. This would be to avoid any possible miss-measurements from the website. If not, will the client provide 3d drawings with exact measures of all the equipment?

Answer :

-The winner of the contract will be able to come on site and take all measurements required for the design/construction. The equipment must stay on site as they are used often for event. The provider will have to make sure that his measurements are accurate. The client will be able to provide the measurements, picture and cad drawing (when available after award).

Question 2:

For proper case fitting, the exact gear dimensions will be required. Can you provide us with the dimensions?

Answer:

Please see answer to question 1.

***** All other terms and conditions remain unchanged.*****
