- To amend the solicitation document accordingly.

QUESTIONS AND ANSWERS

Question 1: Annex "A" - A.2. Deliverables. This states the first order should be delivered "within two (2) weeks after issuance of the call-up". This would be very tight given print production schedules. We request this be changed to 4 weeks minimum, to provide a little more time to schedule the first production run.

Answer 1: The delivery requirement will be changed to 4 weeks.

Question 2: Annex "A" - A.2. Deliverables. SOA also states targets to be bundled in 100's by colour. But the SOA also states targets to be loosely stacked on pallet by colour. Can you please confirm the final required packing? We would be bundling by 100 pcs wrapped in kraft paper, with multiple bundles stacked on pallet. Is there also a height requirement of each pallet?

Answer 2: The deliverables are listed as First Deliverable and Second Deliverable. The First Deliverable are to be loosely stacked by colour on pallets, 7,500 per pallet. The Second Deliverable is to be bundles in 100's by colour.

Question 3: Annex "A" - A.1. Technical Requirement. The SOA states the stock to be "70 LB FSC Husky Offset" paper... however most current documentation from Husky Paper, shows that they are now "SFI" (Sustainable Forest Initiative) and not "FSC" (Forest Stewardship Council). Please confirm if SFI is acceptable.

Answer 3: The technical requirement has been changed.

Question 4: Does the RCMP have a digital file template to be provided for printing?

Answer 4: Yes, and the file is being provided as an attachment.

As a result of these questions, the solicitation document has been amended as follows:

Pre-Award Samples

As part of the technical evaluation, to confirm an Offeror's capability of meeting the technical requirements, one (1) pre-award sample of each target (one blue and one green) must be included with the offer.

The Offeror must ensure that the required pre-award samples are manufactured in accordance with the technical requirement and is fully representative of the bid submitted. The pre-award samples will be evaluated for quality and conformance to specified materials and measurements. The sample submitted by the Offeror will remain the property of Canada.

Should the pre-award samples be rejected, the Offeror will be provided an opportunity to re-submit a second set of samples within two (2) weeks. Rejection of the second set of samples will result in the bid being declared non-responsive.

The Offeror must deliver the required pre-award samples at no charge to Canada and must ensure that they are received with the offer at the time and place of the Request for Standing Offer closing. Failure to submit the pre-award samples will result in the offer being declared non-responsive.

Large Blue Silhouette Targets		Meets	Does not Meet
Size	23" wide x 35" high		
Stock	70 lb. paper FSC or SFI
