This amendment is raised to extend the Closing Date of the tender and to provide responses to the questions received on the solicitation.

New Solicitation Closing Date:

Friday, March 8, 2019 at 2:00pm CST

Questions:

- Q1. How important is the delivery date as we may be around 30-45 days beyond that?
- A1. This requirement has a preferred delivery date of on or before April 30, 2019, due to operational reasons; however if April 30, 2019 cannot be met, bidders are requested to provide the Best Delivery Date in their proposal.
- Q2. The power requirements do not match the description, as the tender is requesting for a 10HP spindle with a 10HP vacuum pump. This machine would require to work on a 60AMP 208v 3phase disconnect for both the vacuum pump and the machine. We should be able to meet these requirements with a 5.5KW vacuum pump which is 7.15HP. I have a feeling the 9HP would be causing the 20AMP breaker to go off.
- A2. BATUS can upgrade the current infrastructure to accommodate a 10HP power router spindle. The contractor is requested to detail the power requirements as part of the bid.
- Q3. Please advise if the CNC Router Table will be used to machine parts for cabinets as the software and training needs will need be set accordingly.
- A3. Yes, the CNC Router will be used to machine parts for cabinets.
