Contract Amendment No. 001 is being issued to reflect the following changes:

- A) Questions and Answers
 - B) Amend Annex "A" - Statement of Work, Section 3.0 General Requirements, Sub Section 3.1 Services
 - C) Amend Annex "A" - Statement of Work, Section 3.0 General Requirements, Sub Section 3.2.2 Semi-annual samples
 - D) Amend Annex "B" - Basis of Payment
-

Amendment:

A) Questions and Answers

- Q1:** With respect Annex "B" – *Basis of Payment*. There is no place to insert pricing for Annual lethality samples in the price chart.
- A1:** Please refer to section D below.
- Q2:** The price chart makes the assumption that each sample is being analyzed for the exact same set of parameters, but if you look at the chart on page 18, that is not actually the case. This will not impact the "Total Estimated Price" for the year, but it does impact the "Firm Price per sample".
- A2:** Please refer to section D below.
- Q3:** Please confirm that Acute Lethality test to be single concentration/LC50.
- A3:** Acute Lethality concentration should reflect LC50. Please refer to section B below.
- Q4:** Carbon Monoxide is listed as metal. Can you please clarify if this should be removed, added as a separate test elsewhere, or was a typo and is supposed to be a different metal.
- Q5:** Regarding the digester analysis, "carbon monoxide" is listed under the metal scan. This parameter is not a 'metal' and is not something that we can test. Please let us know if you will accept our bid excluding carbon monoxide test.
- A4 & 5:** This is a typo and the correct metal is Cobalt.
Carbon Monoxide should reflect the metal element Cobalt.
Please refer to section C below.
- Q6:** With reference to Part 4, Section 4.1.1 – Technical Evaluations. Since the requested work under this contract requires services other than the simple laboratory testing, a contractor might do the other logistics and its subcontractor will do the testing, we would like to ask that the references of our sub-contractor and their experience be accepted in order to satisfy mandatory requirements (M1 and M2). That will allow more competition. According to Statement of Work, "3.4 Contractor's testing facility", it will be enough if the testing facility's experience (sub-contractor) will be used for mandatory requirements M1 and M2.
