Amendment 001

This amendment is being raised to distribute information from the optional site visit.

A. Site Visit Information

1. Site Visit Attendees

| Vendor | Representative's Name |
|-------------------------|------------------------------|
| JRoss Construction | James Ross |
| Zenith Paving | Ahmed Sayed |
| Direct Traffic | Breene Turner |
| Tri-Wave Construction | Rob Van Kommer |
| Maple Leaf Construction | Zach Templeton |

Contact information for the attendees are available upon request and approval from the vendors.

2. Questions & Answers

Q1 Can you provide details on the signage required?

A1 Permanent informational signage and posts will be sourced by PCA and provided to the contractor at no cost. The contractor will be responsible for the installation of all signs identified on the drawings. Temporary/Safety signage is to be the responsibility of the contractor. A Traffic Management plan is to be submitted to the Departmental Representative for review upon award of the contract.

Q2 What is the construction schedule?

A2 Work is to be completed by November 30 2019. Please refer to Section 01 14 00 (Work Restrictions) of the Specification document for further details.

Q3 How will substantial completion be handled given that there are 4 distinct work areas, and one work area may be completed 5 months before the last work area?

Q3 Only 1 substantial performance certificate and 1 final completion certificate will be issued as a part of this contract. However, during the completion of the work, Parks Canada may examine the final schedule and work completed to see whether warranty provisions can start earlier for completed sections of work.

Q4 Who will handle tree removal?

A4 Any areas requiring clearing and grubbing by the contractor have been identified on the drawings.

Q5 What are the required depths of asphalt on specific work sites?

A5 Please refer to the drawings and specifications for this information.

Q6 In the Townsite Parking Lot who will be moving Parking Electrical Plugs?

A6 Parks Canada staff will be handling electrical components of this project.

Q7 What maintenance is required for vegetation?

A7 Please refer to Section 32 93 10 of the specification document for maintenance details and warranty information.

Q8 Where can excess fill be taken?

A8 Dispose of surplus and unsuitable excavated material off site or as directed by the Departmental Representative. Refer to section 31 23 33.01 – Item 3.6.8.

ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED
