AMENDMENT 002

The Solicitation Amendment 002 is raised in regards to the following:

1. The closing date of April 10, 2019 is postponed to April 18, 2019.
2. To provide the answers to the bidders questions.

Question 1:

Is the Black Silk Screened or Heat Sealed lettering to have a matte or gloss finish? Shall it be FR (Flame Resistant)?

Answer 1:

The finishing of the lettering is at the manufacturer's discretion. The lettering is not required to be FR.

Question 2:

With regard to the thermal protection to the wearer from the underarm zippers and the side hem snaps, should these areas be modified to be FR compliant? Please clarify.

Answer 2:

The slide fasteners must be FR as per paras. 4.1.13.1- 4.1.13.4 of the specification. The dome fasteners must be as specified in para. 4.1.9.

Question 3:

Are the following components to be FR (Flame Resistant): the Hook & Loop, the elastic, and the gros grain ribbon?

Answer 3:

The hook and loop, elastic, and gros grain ribbon are not required to be FR.

Question 4:

For the Pre-Award Sample (PAS), will the GAM be sent to bidders at the same time as the request from the Contracting Authority, or will each Bidder be required to purchase the GAM on their own? In the case of the latter, is it possible to change the deadline requirement outlined in 4.1.1.1 to read "...must be submitted within 35 days upon **receiving the GAM outlined in 4.1.1.1.A.iii**"?

Answer 4:

RCMP will not agree to the requested change. RCMP provided a 35 day time line taking into account the necessary amount of time it will take for the GAM to ship from RCMP at Point A to the supplier at Point B. In the case of a requirement like this one where GAM must be purchased at PAS, it is expected that bidders are putting in their GAM order(s) as soon as they learn they are being requested to submit a sample; they know that they have 35 days to send in their submission. If the bidder delays putting in their order for GAM, that delay is on them as the initial time line RCMP provided always took into account the necessary transit time.

CCC No./N° CCC - FMS No./N° VME

Question 5:

Hook and Loop for the samples can I use black, green isn't available custom order only?

Answer 5:

This requirement does not allow for any substitutions at PAS stage. If requested, PAS samples must be manufactured to meet the technical requirements of the specification.

All other terms and conditions remain the same.

A bid already submitted may be amended prior to RFP closing time by sending the amended correspondence to Bid Receiving Unit, the envelope/message bearing the PWGSC file number and the most current closing date.
