THIS RFSA AMENDMENT 002 IS ISSUED TO POST QUESTION AND ANSWER #10 AND THE CHANGES MADE TO THE PURCHASE DESCRIPTION:

QUESTIONS AND ANSWERS, RFSA HEAVY TRAILERS

Q10 - Group 2 – Semi-Trailer – Van, Annex A2, Paragraph 3.5.5.1. - *It states that all configurations must have: "The semi-trailer roof must be constructed of a one-piece translucent material, secured around its perimeter to the roof rails and to pre-cambered roof bows." Can you confirm that the refrigerated trailers require a one-piece translucent material on the roof?*

A10 - The refrigerated trailers do not require translucent material on the roof. It is not mandatory for refrigerated trailers to have pre-cambered roof bows. In the case of a multi-layer insulated roof, it is only mandatory that the external layer be a one-piece material. The Purchase Description will be modified.
