### **Amendment 004**

**Please amend the above mentioned bidding solicitation with the changes here below:**

**1. Question 1:**

In the Mandatory criteria for equipment Section 6, Item 2 it is stated that the crane must have a 10m minimum full extension. The crane that we are considering has a 9.9m extension in a B-boom configuration. If we go to a C-boom, it would have a 14.3m extension. Would 9.9m be acceptable?

**Answer 1:**

As specified in the mandatory criteria of the call for tenders, it is requested 10 m minimum. The 9.9 m is not acceptable. However, the extension of 14.3 m is acceptable as long as the weight is respected.

The new crane must meet the following mandatory specifications:

- 2) Have a capacity of 3.5 t, a range of 6.4 m (minimum) with 10 m extension (minimum) and a maximum of 7 degrees of operating tilt.

**2. Question 2:**

Answer 3 on amendment 002 includes "The pump is a piston pump, with load sensing valve" which does not seem to refer to the question.

Does this refer to the current pump on the power pack which is intended to power the crane and mean that the crane requires a load sensing control valve?

**Answer 2:**

Yes, the crane requires a load sensing control valve.

**3. Question 3:**

The IP67 rating requires total underwater immersion for electrical boxes, this rating is not normally found on crane handheld remote controls. "IP67 is a rating that requires protection against water ingress up to 1 meter submersion for 30 minutes".

Alternatively, IP56 protects against pressure jet spray and is applicable to crane remote controls used in an ocean environment. "IP56 is a rating that requires...protection against water ingress from water jets in all directions". Will an IP56 weatherproof wireless remote control with emergency stop be accepted?

**Answer 3:**

As specified in the mandatory criteria of the call for tenders, it is request:

The new crane must meet the following mandatory specifications:

- 1) Be a certified Marine IP67 crane.
- 11) IP67 weatherproof wireless remote control with emergency stop.

---

**ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.**
