Amendment 007

This amendment is raised to provide additional information related to the CHER Project.

Canada is releasing the preliminary proposed In-Service Support (ISS) parcels linked to the proposed bundle strategy for the 18 platforms of the CHER Project.

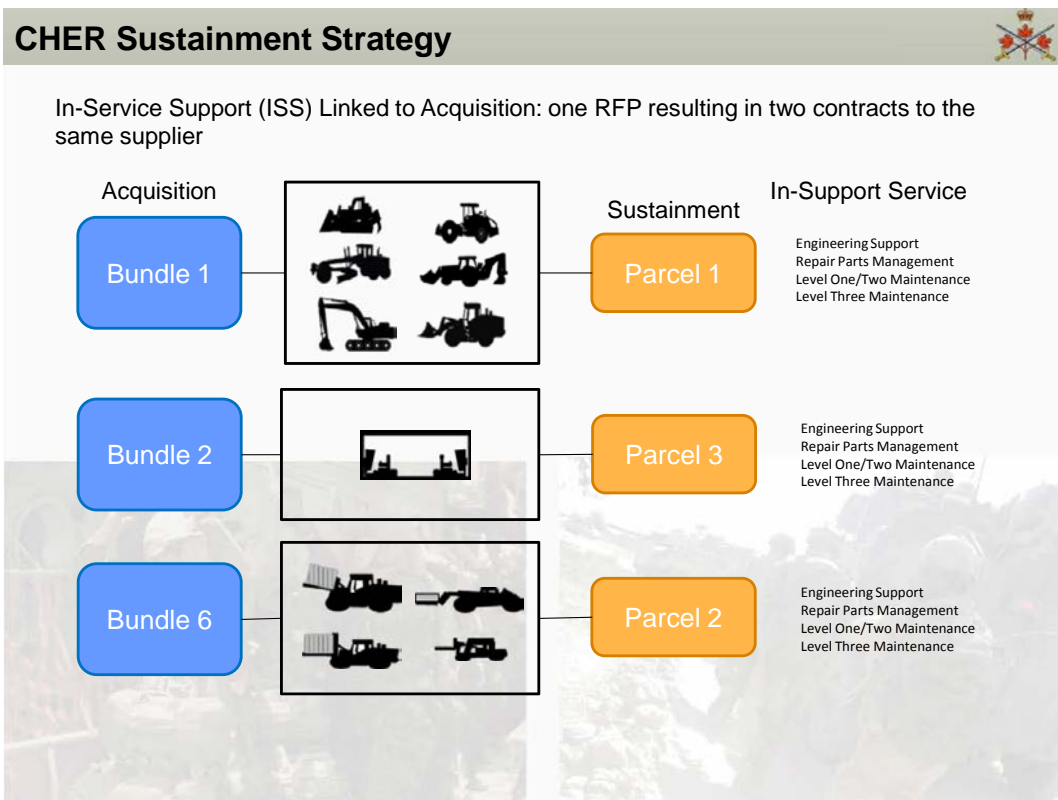

Division of responsibility for sustainment services was analyzed to form the scope of contracted in-service support (ISS). The Commercial Sustainment Solution has been grouped using a System Support Contracting approach consisting of eleven ISS Parcels.

Contracted services will be called upon as required using a combination of Firm Price and Fixed Time Rate payments.

The Evaluation of the proposal will take into consideration the financial, the technical and the Industrial and Technological Benefits (as applicable) with a highest ratio for the financial.

PSPC will not be bound by anything stated herein and reserves the right to change at any time, any or all parts of the requirement, as it deems necessary. PSPC also reserves the right to revise its procurement approach, as it considers appropriate, either based upon information submitted in response to this RFI or for any other reason it deems appropriate.

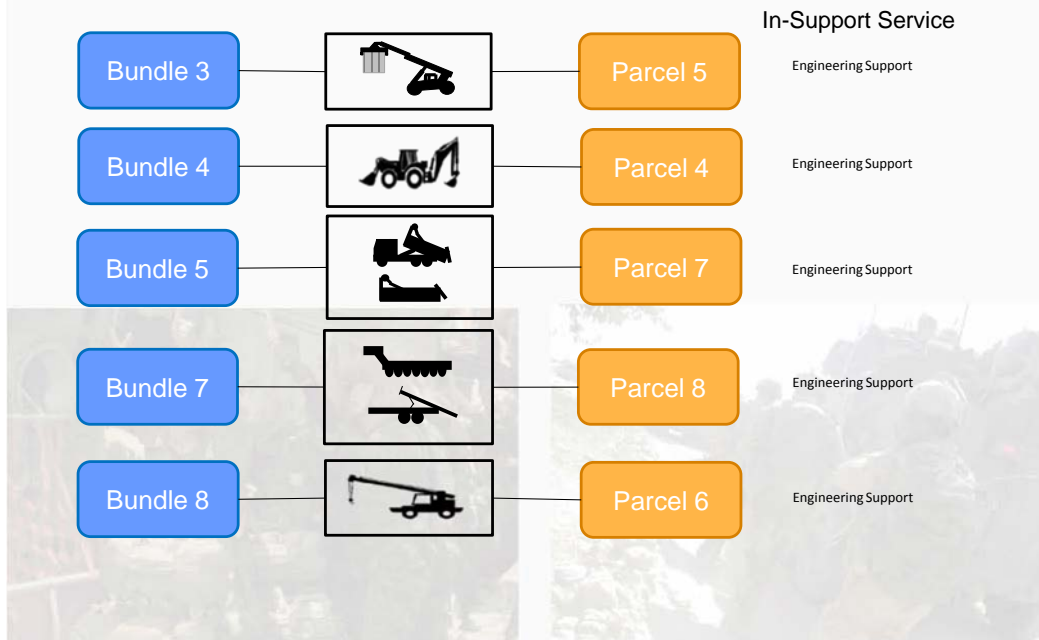

You are invited to provide any comments or additional information to TPSGC.PADVIMPLHS-APIVMPLDHS.PWGSC@tpsgc-pwgsc.gc.ca.

CHER - Sustainment Strategy (Cont.)

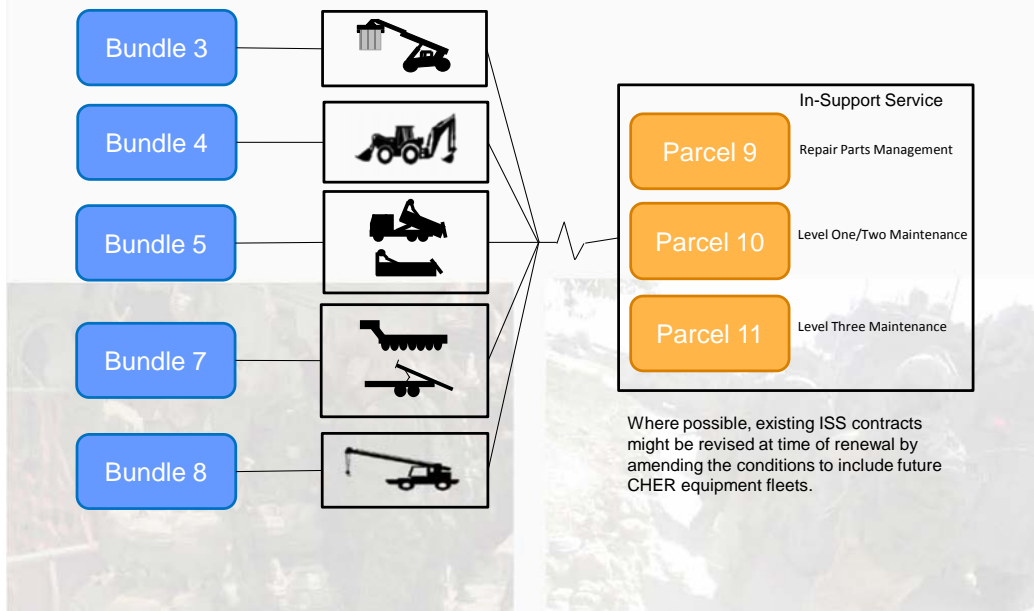

ISS Linked to Acquisition: one RFP resulting in two contracts to the same supplier

CHER - Sustainment Strategy (Cont.)

ISS Separate from Acquisition: ISS contracts awarded through separate RFPs.

All other terms and conditions remain unchanged.
