## SOLICITATION AMENDMENT 003

### 1.1 Amendment 003

Solicitation Amendment 003 is raised to address the following:

**Question:** For the pollution and environmental leakage - i.e. deployment/maintenance of containment booms - what does the department specify for this line item? (Construction of containment boom, capacity, and overall length needed, etc.?)

**Answer:** The requirement references sorbent boom. If inshore boom is required then it will be the Crown's boom. It is not the intent for companies to have their own inshore boom in stock.

**Question:** For underwater hull repair, do we include the cost of the welder to be onsite in the hourly rate and daily rate or does that rate get included after the fact? How do we account for consumables like welding rods and burning rods in the hourly rate? Or will that be evaluated in a call-out by call-out basis?

**Answer:** The hourly rate requested is the basic hourly rate for normal operations. When a Call-Up is requested then the companies would detail specific requirements requested for that Call-Up.

**Question:** I just wanted to confirm that if our prices do not change for each location can we just provide the one pricing table? There also is no area to put in for travel pricing but I'm assuming that will take place when the job is outside of our area?

**Answer:** Yes, you can provide one pricing table if prices do not change from one location to another. Ensure that you check the locations that you are bidding on. Annex "F" details travel and living costs. Reimbursement is at cost, without mark up.

**Question:** Is all relevant information requested in this table to be submitted with the tender, i.e., procedure manuals, emergency procedures, checklists, diver qualifications, etc.? This would amount to a considerable amount of paperwork within the submittal.

**Answer:** Diver qualifications / certificates are to be supplied at a minimum. Manuals, procedures, checklists etc. can be referenced / acknowledged but would have to be submitted before any award of a Call Up.

**Question:** For the pricing table, are the RT & OT rates based on a single diver or the full team? Based on the listed scopes of work many of the tasks would require different amount of crew to meet the regulations and safety requirements. If it is for the full team please specify the number of persons to base the price on.

**Answer:** Rates are based on a full team. It is not up to the Crown to determine minimum numbers of personnel required. The regulations determine the numbers of persons required to perform the required tasks.

\*ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED\*
