Amendment Number:
007

Buyer ID:
640EL

The purpose of Amendment number 007 is to:

- answer a bidder's question; and
- amend the Request for Proposal (RFP).

QUESTION AND ANSWER

Question 22

Regarding question and answer 21 in Amendment 006 for RFP 47419-252068/B, our interpretation of the original MT2 is that the resource has to have a minimum of 5 years of experience on SAP implementations, not experience on one (1) 5-year-long SAP implementation. Additionally, nowhere in the original requirement does it state that the implementation has to be for the Government of Canada.

With the new change to MT2, the client is requesting contradictory information: if we are to interpret the original requirement as asking for one 5-year-long SAP implementation as the amendment assumed, the client is now asking for one (1) 3-year-long SAP implementation as well as requiring that the implementation is a minimum of 18 months in duration.

We respectfully requests that the requirement be changed back to the original with the clarification that the 5-year minimum can be comprised of multiple SAP implementations or provide clarity on the new requirement as to which minimum duration we need to meet to be compliant.

Answer 21

Canada has reviewed the request, please refer to the RFP Amendment below for changes to MT2 for Resource Category: Application/Software Architect (SAP BASIS) – Level 3.

RFP AMENDMENT

1. At Attachment 4.1 – Bid Evaluation Criteria of the RFP, 1.2 Resource Mandatory Technical Evaluation Criteria for Resource Category: Application/Software Architect (SAP BASIS) – Level 3:

DELETE:

MT2 <small>PB</small>	<p>The bidder must demonstrate that the proposed resource has a minimum of 3 years of experience designing and implementing a new SAP implementation including:</p> <ul style="list-style-type: none"> • planning and sizing the technical landscape(s) (all states); and • installing, configuring and integrating components and modules <p>and 5 or more of the following tasks:</p> <ul style="list-style-type: none"> • load balancing, failover and recoverability • change management and maintenance strategy • central user administration • securing • performance and load testing • backup and restore • implementing and stabilizing production to maximize performance <p>Note: The minimum duration of a qualifying project is 18 months.</p>		
------------------------------	---	--	--

INSERT:

MT2 <small>PB</small>	<p>The bidder must demonstrate that the proposed resource has a minimum of 3 years of experience designing and implementing one or more new SAP implementation(s) including:</p> <ul style="list-style-type: none"> • planning and sizing the technical landscape(s) (all states); and • installing, configuring and integrating components and modules <p>and 5 or more of the following tasks:</p> <ul style="list-style-type: none"> • load balancing, failover and recoverability • change management and maintenance strategy • central user administration • securing • performance and load testing • backup and restore • implementing and stabilizing production to maximize performance <p>Note: The minimum duration of a qualifying project is 18 months. The bidder must submit one project of 3 or more years in duration; or two separate projects each of at least 18 months in duration.</p>		
------------------------------	--	--	--

2. At Appendix C to Annex A – Resources Assessment Criteria And Response Table, Mandatory Technical (MT) Criteria for Resource Category: Application/Software Architect (SAP BASIS) – Level 3:

DELETE:

MT2	<p>The Contractor must demonstrate that the proposed resource has a minimum of 3 years of experience designing and implementing a new SAP implementation including:</p> <ul style="list-style-type: none"> • planning and sizing the technical landscape(s) (all states); and • installing, configuring and integrating components and modules <p>and 5 or more of the following tasks:</p> <ul style="list-style-type: none"> • load balancing, failover and recoverability • change management and maintenance strategy • central user administration • securing • performance and load testing • backup and restore • implementing and stabilizing production to maximize performance <p>Note: The minimum duration of a qualifying project is 18 months.</p>		
------------	---	--	--
