Q.1

A significant amount of courseware developed in recent years is intended for delivery online and/or through mobile devices. Additionally, courseware may require specific hardware, server or software add-ons and licensing that are not deployable via execution from an optical disk. Would Canada consider video recordings (such as Captivate recording) of lessons being executed and demonstrating the required attributes? Videos will perform well on optical disks and avoid any compatibility or infrastructure limitations.

A.1

Yes, that is acceptable.

Q.2

R.1.2 For Resource Categories: Senior and Intermediate Technical Writer, 5 points will be awarded for "Integrating Virtual or Augmented Reality into training environment". Considering Amendment #2 and the changes to Annex A SOW for the duties of Technical Writers, and based on our experience with technical writers duties, would the Crown consider removing this rated requirement which we believe no longer applies.

A.2

We want to give higher points if the writer has worked on deliverables that includes those environment. Leave as is.

Q.3

CM4 states the following:

The proposed Client Project Manager must have a University degree (in any field) or a College Diploma (in any field) and must have a Project Management Professional (PMP) certification from the Project Management Institute.

Prior to this amendment, the proposed Client Project Manager required a University degree (in any field) or a College Diploma (in any field) OR Project Management Professional (PMP) certification from the Project Management Institute. Please see previous Appendix E page 44, STREAM 4 – Project Management, 12.3.1:

M.1 (in the SOW): Must have a University degree (in any field) or a College Diploma (in any field) or Project Management Professional (PMP) certification from the Project Management Institute.

Client Ref. No. - N° de réf. du client W0103-166712	File No. - N° du dossier W0103-166712	CCC No./N° CCC - FMS No./N° VME

Our question: Could you please confirm if a Project Management Professional (PMP) certification from the Project Management Institute is now required for the resource”

A.3

To make sure we have consistency in the wording, a PMP is not required. The wording should be ‘or.’

At CM4 of ANNEX E

Delete:

The proposed Client Project Manager must have a University degree (in any field) or a College Diploma (in any field) and must have a Project Management Professional (PMP) certification from the Project Management Institute.

And replace with the following:

The proposed Client Project Manager must have a University degree (in any field) or a College Diploma (in any field) or must have a Project Management Professional (PMP) certification from the Project Management Institute.

All other terms and conditions remain the same
