**Q&As:**

Q1: Category 2 – Height Adjustable Table is to be a laminate product per the Supply Arrangement. However, the plans indicate it should be wood veneer. Please adjust the specifications to laminate as per the Supply Arrangement so all is clear on the material requirement.

A1: The selected product for Category 2 needs to match Category 4 items, which means they need to be wood veneer.

Q2. Category 4 – Items 1 and 2 call for Transitional surfaces. However, the plans show rectangle. Please confirm if these items should be transitional surfaces or rectangle.

A2: Confirming rectangle.

Q3: Will the shipping location be able to accommodate a 53 foot trailer for the delivery of the goods? If not, what is the maximum truck length the location can accommodate?

A3: Based on past/current contracts with furniture for 800 Burrard restack, I can see that a 5 ton truck can fit, which is approximately 35 feet in length.

Q4: For item 10 – Non-SA – please confirm if the quantity should be 62 for the upholstered cork board, as it shown on the drawings for each office but the quantity is only showing 1 on the tables.

A4: 62 is confirmed.
