1. Introduction

Public Services and Procurement Canada (PSPC) is seeking Price and Availability (P&A) information.

A Price and Availability (P&A) enquiry is a request sent to suppliers for information concerning approximate prices and availability of specific goods or services. It is used when such information is needed by Public Works and Government Services Canada (PWGSC) or by a client department for program planning or budgetary purposes. This P&A enquiry clearly indicates that the request is not a solicitation and that there are no commitments with respect to future purchases or contracts.

This is not a bid solicitation. A contract will not result from this activity. This P&A will not necessarily result in any procurement action. This P&A is for informational purposes only and does not constitute a commitment by Canada. Responses to this P&A will not constitute a commitment from the industry provider. Canada will not reimburse any expenses incurred for the preparation of responses to this P&A.

This request is issued to determine price and availability of existing Commercial Off-the Shelf (COTS) equipment as per the table below.

System	Supplier	Model and/or Part Number
Electronic Flight Display System	Garmin	G600 TXi / 011-02299-40
ADS-B Out		GTX 345R / 011-03303-00
NAV/COM		GNC 255
Distance Measuring Equipment (DME)	Bendix	KDM 706/706A
CVR/FDR	Flight Data System (FDS)	FDS80-1004

2. Nature of Price and Availability

This is not a bid solicitation and this P&A will not result in the award of any contract. Procurement of the goods described in this P&A will not necessarily follow this request.

Respondents and potential suppliers of any goods described in this P&A should not earmark stock or facilities, nor allocate resources, as a result of any information contained in this P&A. This P&A will not result in the creation of any source list; therefore, whether or not any supplier responds to this P&A will not preclude that supplier from participating in any future procurement.
