QUESTIONS AND ANSWERS

Question # 016

Reference:

Appendix 2 to Annex E Criteria for Key Resources

Question #016:

We respectfully find that the requirement for an enterprise architecture certification as a mandatory (RM) for the I.10 Technical Architect role to be overly restrictive and a limitation on bidders' ability to provide the best resources to CIPO. With the enterprise architecture certification as an RM for this role, CIPO is drawing a preference to a certification that involves a week of study versus attracting individuals with extensive real world experience in the areas that CIPO requires.

As such, for the I.10 Technical Architect role, may we request that the Crown either remove RM4 or move it to be included as a Resource Point-Rated Criteria (RPR)?

Answer #016:

Canada highly values resources' practical, hands-on experience as it relates to CIPO ITM requirements. Canada also appreciates resources' knowledge and education in various areas. To allow sufficient time for the resource to obtain the required certification, the RM4 for both CDS and IPRMS is amended. Please refer to page 1, Article 1 and 2 of this Amendment 006.

ALL OTHER TERMS AND CONDITIONS OF THE BID SOLICITATION REMAIN UNCHANGED.
