Amendment 002 is raised to:

**1) Answer the questions below:**

**Question 1:** If we can offer more than one format per product, can we add lines to the excel spreadsheet?

**Answer:** Please do not add any lines to the excel spreadsheet. Simply indicate the formats you can offer in the column T, titled "All formats available from Supplier"

**Question 2:** In Column R (Canada's Preferred pack size \*\*), can we change it to indicate our pack size?

**Answer:** No, please indicate the format sizes you can provide under column T, titled "All formats available from Supplier".

**Question 3:** "The price per unit of measure must remain the same regardless of format size." Could you please clarify if this is applicable to injectable products? Does this mean that the price per mL should be the same?

**Answer:** Yes, in the case of injectables the price per mL should be the same for each format size offered.

Please refer to Part 3 – Bidder's Instructions. Item 3.3 (f) Financial bid states:

*The Bidder should make every effort to quote on the format size indicated in the item description for bottles, tubes and jars. However, if the Bidder cannot supply the format requested, the Bidder is requested to quote the closest format size available. The Bidder must indicate which format size is being quoted with a note in the "Format Sizes Available" column of the spreadsheet. If necessary, pricing for these items will be evaluated based on one millilitre, one gram, etc.*
