Amendment 001

This amendment is being raised to distribute question and answers.

A. Questions and Answers

Q1 Within the specifications, clearing and grubbing is noted as incidental to the culvert works. The drawings make no indication of the quantity of trees at the locations requiring removal, nor the locations where this work is required. Can a quantity of trees and the locations requiring clearing and grubbing please?

A1 Quantities are not available. As per specifications Section 31 11 00 Clearing and Grubbing, Item 1.1.1, areas which may require clearing and grubbing include culvert installations and grade widening. Culvert installation and widening locations are identified on the drawings.

Q2 Unit Price item 1b quantifies the amount of mill and fill work within the contract. There is 3400m of 0.4m wide milling required for this item, yet the contract does not indicate where this work will be done with LKI 32 to 40.56. Can you provide the locations of where this work will take place?

A2 Unit Price item 1B work will be within the project limits and exact locations will be marked in the field by the Departmental Representative prior to undertaking the work.

ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED
