Question(s) and Answer(s) from Bidder(s)

Question 1 - Is the Lock Block foundation already in place?

Answer 1 – No, the Lock Block foundation will need to be supplied and installed by the awarded contractor as specified in the drawing package.

Question 2 - Would a frost protected foundation such as Helical Piles be an option?

Answer 2 – No, due to restrictions on site because of archaeological concerns in the area, the building has been designed to be built on grade. This is to ensure all excavation is to be kept to an absolute minimum, and should be limited to the layer of drainage crush for the Lock Blocks to sit on, and minimal excavation to accommodate tying into existing plumbing services if required.
