This amendment is for solicitation W0142-20X017/A:

**1. Remove:**

**6.6.3 Single Payment**

Canada will pay the Contractor upon completion and delivery of the Work in accordance with the payment provisions of the Contract if:

- a. an accurate and complete invoice and any other documents required by the Contract have been submitted in accordance with the invoicing instructions provided in the Contract;
- b. all such documents have been verified by Canada;
- c. the Work delivered has been accepted by Canada.

**Insert:**

**6.6.3 Multiple Payments**

Canada will pay the Contractor upon completion and delivery of units in accordance with the payment provisions of the Contract if:

- a. an accurate and complete invoice and any other documents required by the Contract have been submitted in accordance with the invoicing instructions provided in the Contract;
- b. all such documents have been verified by Canada;
- c. the Work delivered has been accepted by Canada.

---

## 2. Remove Annex D – Compliance Matrix – Minimum Mandatory Performance Specifications in its entirety

### **Insert: Revised attached Annex D – Compliance Matrix – Minimum Mandatory Performance Specifications**

#### ANNEX D - COMPLIANCE MATRIX – MINIMUM MANDATORY PERFORMANCE SPECIFICATIONS

A complete list of the minimum mandatory performance specifications are detailed below in the "Compliance Matrix". Bidders are to clearly demonstrate compliance with each mandatory specification.

1. Bidders **must** show compliance by addressing each performance specification in the Compliance Matrix, whether the product offered "meets" or "doesn't meet".
2. Bidders are requested to indicate how they meet each performance specification by recording this information under the Performance Specification Offered column in the Compliance Matrix.
3. It is requested that supporting technical documentation, including but not limited to, specification sheets, technical brochures, photographs or illustrations be provided with the bid at solicitation close and be cross-referenced on the Compliance Matrix for each performance specification to outline where in the supporting technical documentation it demonstrates compliance. It is the Bidders responsibility to ensure that the submitted supporting technical documentation provides detail to prove that the proposed product(s) meet the requirements of the Performance Specification. If published supporting technical document is not available, the Bidder should prepare a written narrative complete with a detailed explanation of how its bid demonstrates technical compliance.
4. If the supporting documentation referenced above has not been provided at bid closing, the Contracting Authority will notify the Bidder that they must provide supporting documentation within two (2) business days following notification. Failure to comply with the request of the Contracting Authority within that time period, will deem the bid non-responsive and the bid will be given no further consideration.
5. Bidders must address any concerns with the performance specifications in written detail to the Contracting Authority before bid closing as outlined in the Request for Proposal (RFP) document.
6. Failure to meet each mandatory performance specification will result in the bid being deemed non-responsive, and be given no further consideration.

**COMPLIANCE MATRIX – MINIMUM MANDATORY PERFORMANCE SPECIFICATIONS:**

Requirement:	Manufacturer Offered:	Model number Offered#:
Bunk Beds		

Item #	Performance Specification	Status (M) Mandatory (D) Desirable	Performance Specification Met? Indicate either Yes/No	Performance Specification Offered: Bidder should indicate how they meet the performance specification by recording this information in this column	Cross Reference: In this column, Bidders should cross-reference where this performance specification is indicated in their supporting documents.
1	Must meet Health Canada recommendations that bunk beds meet the safety requirements of American Standards ((ASTM F-1427-96, and 16 CFR, Parts 1213, 1500, and 1513).	M			
2	Must be heavy Duty Commercial Grade Metal Bunk Bed with tubular steel deck to ensure durability and ability to support adult weight and prevent bending/buckling/deforming over time after use by multiple users.	M			
3	Must be 16 gauge steel or sturdier with rust resistant epoxy powder coated finish (or a comparable rust-resistant coating)	M			
4	Must be bed bug resistant	M			
5	Must have a weight capacity of a minimum 400 pounds per sleep surface	M			
6	Must include all top bunk guard rails and one or two built in ladders to reduce the risk of users falling and	M			

	injuring themselves.				
7	Ladder(s) must be on the long side(s) of the bed in order to fit in the existing barracks and allow for foot-locker storage	M			
8	Ladder must be fixed to the bed frame at the bottom and top, rather than sticking out from the frame at the base.	M			
9	Ladder must be composed of stringers (rails/stiles) and rungs that are separate from the frame, but attached to the frame.	M			
10	Height (distance from ground to the top of top-bunk guardrails): 74"  Bed Deck Width/Depth (Distance from the left side of the head of the bed to the right side of the bed): 36"  Bed Deck Length (Distance from the head to the foot of the bed): Minimum 75" to fit existing mattresses, maximum 76"	M			
11	Must be delivered in a manner that allows for off-loading by forklift – CFB Suffield forklift to be used.	M			
12	Bunk bed must be delivered flat-packed and partially assembled. Installation to be completed by the client, not the contractor. Beds should be partially assembled, resulting in an assembly	M
