THIS AMENDMENT IS RAISED TO answer questions:

**Question 1:** It is unclear with respect to part number 183266-91690 Solenoid Valve (item 1 on drawing 9480802 and item 5 on drawing 9480813 – both attached) as to how 183266-91690 is assembled on drawing 9480813. The description of item 5 on drawing 948013 refers to drawing 9480802 however on that drawing it shows a wire assembly going to 183266-91690 but the wire assembly does not show on the final assembly 9480813. Does that mean we only assemble 183266-91690 directly to the Yanmar Cable and if so are we to cut the two leads off of the Valve 183266-91690?

**Answer 1:** Yes, assemble 183266-91690 directly to the Yanmar Cable. No, do not cut the two leads off of the Valve 183266-91690.

**Question 2:** Another clarification is required. On drawing 9480813 (attached) item 2 on the BOM calls up a Yanmar Engine Cable #1832 and 66-66110 – Yanmar does not recognize these part numbers. Please confirm part number and the engine model number that this cable is used on.

**Answer 2:** Refer to Annex A.

**Question 3:** The lead time including the lead time from the manufacturer and logistics involved for this part is 210 days ARO. Could you please let us know if this lead time is acceptable to Canada?

**Answer 3:** No there is already outstanding demands in since quite a while, 120 days is the maximum.

**All other terms and conditions remain unchanged**
