Amendment 001 is raised for the following:

Question 1: With regard to the RFSO for MA021-190004 - Vessel Vibration Testing, it states at para 4.1.1.1, MR4 and again at the end of ANNEX "A", page 19:

'...a copy of a valid Vibration Specialists Certificate for each employee designated to provide the deliverables as outlined in Annex A/Appendix D. The certificate must be issued from Canadian Machinery Vibration Association and comply with ISO Standard 18436-2 Category III Vibration Analysis.'

Our vibration analysts are currently certified to ISO Standard 18436-2 with Emerson Educational Services and Mobius Institute. As our certification with Emerson Educational Services and Mobius Institute is also to ISO Standard 18436-2, is it acceptable or must the certification be specifically from Canadian Machinery Vibration Association?

Answer 1: The Technical Authority has reviewed this request and has determined that the Emerson Educational Services and Mobius Institute certification identified above is acceptable and does meet Mandatory Requirement 4 (MR4) as stated at para 4.1.1.1 of the Solicitation document.

All other terms and conditions remain the same.
