2.3 Former Public Servant

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is

completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the *Financial Administration Act*, R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;
- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the *Public Service Superannuation Act* (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the *Supplementary Retirement Benefits Act*, R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the *Canadian Forces Superannuation Act*, R.S., 1985, c. C-17, the *Defence Services Pension Continuation Act*, 1970, c. D-3, the *Royal Canadian Mounted Police Pension Continuation Act*, 1970, c. R-10, and the *Royal Canadian Mounted Police Superannuation Act*, R.S., 1985, c. R-11, the *Members of Parliament Retiring Allowances Act*, R.S. 1985, c. M-5, and that portion of pension payable to the *Canada Pension Plan Act*, R.S., 1985, c. C-8.

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with Contracting Policy Notice: 2012-2 and the Guidelines on the Proactive Disclosure of Contracts.

Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? Yes () No ()

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

2.4 Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than seven (7) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

2.5 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

4.1.2 Financial Evaluation

SACC Manual Clause [A0220T](#) (2014-06-26), Evaluation of Price

The price of the bid will be evaluated in Canadian dollars, Applicable Taxes excluded, FOB destination, Canadian customs duties and excise taxes included.

4.2 Basis of Selection

4.2.1 Highest Combined Rating of Technical Merit (70) and Price (30)

1. To be declared responsive, a bid must:
 - a. comply with all the requirements of the bid solicitation; and
 - b. meet all mandatory criteria; and
 - c. obtain the required minimum of 33 points overall for the technical evaluation criteria which are subject to point rating.
The rating is performed on a scale of 55 points.
2. Bids not meeting (a) or (b) or (c) will be declared non-responsive.
3. The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 70 % for the technical merit and 30 % for the price.
4. To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 70 %.
5. To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of 30%.
6. For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.
7. Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract.

The table below illustrates an example where all three bids are responsive and the selection of the contractor is determined by a 70/30 ratio of technical merit and price, respectively. The total available points equals 135 and the lowest evaluated price is \$45,000 (45).

Basis of Selection - Highest Combined Rating Technical Merit (70%) and Price (30%)					
		Bidder 1	Bidder 2	Bidder 3	
Overall Technical Score		115/135	89/135	92/135	
Bid Evaluated Price		\$55,000.00	\$50,000.00	\$45,000.00	
Calculations	Technical Merit Score	$115/135 \times 70 = 59.63$	$89/135 \times 70 = 46.15$	$92/135 \times 70 = 47.70$	
	Pricing Score	$45/55 \times 30 = 24.55$	$45/50 \times 30 = 27$	$45/45 \times 30 = 30.00$	
Combined Rating		84.18	73.15	77.7	
Overall Rating		1st	3rd	2nd

ANNEX "A" - STATEMENT OF WORK

Incident Command System (ICS)-Based Exercise Support: Development, Facilitation, Evaluation and Training

1.0 INTRODUCTION

The Canadian Coast Guard (Coast Guard) is the Canadian federal government agency charged with maintaining a safe, secure and clean environment in Canadian waterways and coastal oceans. To fulfill this mandate, the Coast Guard utilizes a fleet of ships, aids to navigation, environmental response equipment and other facilities. The Coast Guard has implemented the Incident Command System (ICS) as its standard incident management methodology in order to improve operational effectiveness and interoperability with external agencies when responding to all-hazard maritime incidents.

The conduct of exercises while applying the principles and concepts of ICS enables Coast Guard and Department of Fisheries and Oceans (DFO) employees to apply the skills and knowledge gained through classroom instruction to scenarios within a structured exercise while executing their respective assigned functions as part of an incident management team.

Exercises also allow Coast Guard to validate the readiness of its response community through the exercising of the response arrangements in our contingency plans. This improves the effectiveness of response training, validates contingency plans and other critical response reference materials, practices and develops response techniques and procedures, and improves the design and execution of future exercises.

Exercising aims to incorporate the same cooperative management approach amongst the response community partners that would occur during the response to an incident. Exercises are coordinated at various levels and include stakeholders across Coast Guard and DFO, departments/agencies from Federal, Provincial and Municipal governments, international organizations and governments, as well as partners such as coastal communities, stakeholders and Indigenous communities, and the private industry.

2.0 BACKGROUND

The implementation of ICS at Coast Guard ensures effective overall command, control and coordination regardless of the scope, scale and complexity of an incident and enables a standardized approach to all-hazard incident response, events and operations, including:

- Environmental Response;
- Humanitarian Assistance;
- Maritime Security;
- Planned Security Events;
- Coast Guard Internal Incidents; and
- Major Maritime Incidents.

ICS-based exercises and the leveraging of existing operational program exercises play a significant role in Coast Guard readiness. They also help to clarify the roles and responsibilities assigned to Coast Guard employees and senior management (director or equivalent and above).

In order to support exercise development, execution and evaluation, Coast Guard wishes to hire up to three (3) resources who can support, facilitate and evaluate incident management exercises while applying the principles and features of ICS.

3.0 PURPOSE OF REQUEST FOR PROPOSALS

The purpose of this Request for Proposals is to solicit proposals, on a competitive basis, to establish contract(s) for the delivery of all-hazard, ICS-based exercise support services to Coast Guard/DFO, particularly with design, facilitation, evaluation and exercise-specific training. The Contract would be for the 2019-2020 fiscal year (from time of Contract award to March 31, 2020), with the possibility of three (3) option years:

- Option year 1 – from April 1, 2020 to March 31, 2021;
- Option year 2 – from April 1, 2021 to March 31, 2022; and,
- Option year 3 – from April 1, 2022 to March 31, 2023.

The contracts will be awarded individually to one or more bidders (i.e. the resources can be provided individually by separate Bidders, or all three (3) resources can be provided by a single Bidder).

- One (1) contract is for one Bidder to supply one (1) Resource who is fully bilingual in French and English at the advanced level.
- The other two (2) contracts are for one or more Bidders to supply up to two (2) Resources who are proficient in English at the advanced level.

Please refer to section 15 of this Annex for more information regarding language requirements.

PLEASE NOTE:

- A separate proposal must be submitted for each proposed Resource.
- A Bidder may submit a bid proposal for both consultant requirements (English Resource[s] or bilingual Resource).
- The bidder can propose the same Resource for both requirements (English and bilingual). However, one Resource cannot be awarded more than one (1) contract as all three (3) Resources may be required to provide services at the same time.
