

Amendment 003***Please disregard the document questions_english_.pdf that was published July 5th 2019 - those questions do not pertain to this tender.

Question 001 for tender T2012-190016:

Question :

Could you please confirm that the laboratory methodology to be used for the hydrocarbon analysis in groundwater is Atlantic PIRI BTEX/TPH as indicated in the RPF document, section 4.7.5, and not CCME BTEX, F1-F4, as is often used on federal sites.

Response:

Please note that the RFP should have indicated to use the CCME laboratory methodology for analysis of BTEX/TPH in groundwater and not the Atlantic PIRI laboratory methodology.
