Amendment 003 of Request For Proposal (RFP) W8486-195926/A is raised in response to questions received to and modify RFP as follows:

A. QUESTIONS & ANSWERS

Parts 385733, 385730, 385731 all specify manufacturing by injection moulding. Injection molding usually refers only to plastic injection molding, not aluminum. Aluminum parts like this are usually die cast.

Q6. Can you confirm if "die casting" is the same as "injection molding"?

A6. No, die casting is not the same as injection molding. Injection molding is usually a process involving plastic works, die casting is a process involving metal works.

Q7. As an alternate the parts can be CNC machined from Aluminum billet. Is this method allowed to make these parts?"

A7. In the case of these parts 385733, 385730, 385731 they can be manufactured using a CNC Machining process or by Die Casting process as long as the end product meets the specifications as outlined in the associated technical drawings

Q8. Would DND be able to provide the drawing for item 8: 21-907-5367?

A8. The associated drawing for item 8: 21-907-5367, # 8490229, can be found in the technical data package for the solicitation.

Q9. Would DND be able to provide the drawing for item 9: 21-907-5368?

A9. the associated drawing for item 9: 21-907-5368, # 8490228, can be found in the technical data package for the solicitation.

Q10. For the above solicitation drawings 8490229 and 8490228 call for aluminum alloy 6061 T6. Would 6063 T832 be acceptable?

A10. The proposed substitute material 6063 T832 is deemed unacceptable. The proposed material does not meet our requirements, please use the material as specified in the drawing for the production of this item.

B. REQUEST FOR PROPOSALS MODIFICATION

The option quantities for item 13 have been increased as follows:

At ANNEX A – REQUIREMENT, A3. DELIVERABLES, Option Quantities:
