Amendment 002

This amendment is raised to answer questions about the RFB, which results in a refresh of Annex A.

Question 3: There is some conflicting information on the Office Chairs. The description shows “Fixed” lumbar, but the GoCUID suggests “Adjustable Lumbar”.

- a) Can you clarify which you are looking for?
- b) If Fixed, why wouldn’t you want adjustable lumbar support? The Adjustable Lumbar options greatly outprice the GoCUID options for Fixed, and it offers an additional level of individual support for the user. We rarely see requirements for mesh back chairs without lumbar support unless they are being used in a boardroom/meeting room setting.

Answer 3: a) The correct GoCuid is 7OCHNBMLFASSALMTCUBF.
b) There will be no change; Canada requires fixed lumbar.

Question 4: If there is the potential of up to 3 contracts for this solicitation, will the bid document be amended to include a separate delivery table and installation table for each chair model (assuming that a supplier may not be awarded all 3 contracts).

Answer 4: Yes, see a full refresh of Annex A below.

Changes to the RFB:

DELETE: Annex A in its entirety.

REPLACE WITH:

ANNEX A REQUIREMENT and BASIS OF PAYMENT

Bidder to complete: Section B of Tables 1, 3, 5; Section B of Tables 2, 4, 6 if applicable; Tables 8 and 9.

In a resulting contract, the term “Bid” means the Supplier’s commitment, the term “Bidder” means “Contractor”.

1. Category Selection

The requirement includes the following category (ies) of work :

- ☒ **Category 1 - Rotary Office**
- ☒ **Category 2 - Rotary Conference**
- ☒ **Category 3 - Side Chair**

GoCUID Rule:

RULE: The IU must identify the GoCUID by using separate line items within the table 1. Each product GoCUID code will be evaluated separately and multiple contracts may be awarded from one solicitation.

Added Features Rule: Allows Identified Users (IUs) the opportunity to enhance a chair’s features.

Added features are applicable to pre-qualified product only, which provide a non-structural enhancement. Any added feature must have generic specifications.

It is the responsibility of the IU to justify any added feature in a RFB. Justification should be on file in order to defend any complaints during the procurement process. Each added feature must be added by the IU in the bid solicitation (RFB or RFP). Examples include, but are not limited to, finishes, casters (i.e. chrome casters), and upholstery upgrades.

Non-Supply Arrangement (NSA) Rule – Allows Identified Users (IUs) the opportunity to purchase up to 30% NSA chairs of the total combined quantity of chairs. NSA chairs are chairs that do not form part of Annex B Product and Price catalogue of the Supply Arrangement.

NSA chairs must have generic technical specifications and dimensions, and must include tolerances and ranges. Each NSA chair must be added by the IU in the bid solicitation (RFB or RFP). Examples of NSA chairs include, but are not limited to, rotary task stools or intensive use chairs.

An example of 30% of the total combined quantity could be:

- 100 quantity of the Rotary Office Seating (category)
- 50 quantity of the Rotary Conference (category),
- Therefore: up to 45 NSA chairs could be procured within the same solicitation.

Should IUs require assistance or review of their NSA specifications, IU’s can send an email including their specifications to TPSGC.PARCNameublement-APNCRFurniture.PWGSC@tpsgc-pwgsc.gc.ca for review by the Office Seating Technical Authority prior to solicitation. All NSA chairs are required to meet the associated ANSI/BIFMA testing for Office Seating. Generic Specifications are also found on the Office Seating Website.
