AMENDMENT 008

This amendment is raised to answer questions from potential bidders.

QUESTION 30:

Can DND allow any outsole design that through thorough testing, as per the SOW, displays equal to or better performance than what the SOW requires? The outsoles specified in Table V are not suitable for use on the DESMA machines.

ANSWER:

DND has confirmed that there are outsoles specified in Annex B, Table V (Outsole and Tread Pattern Design Options) suitable for use on DESMA machines.

In order to reduce risk to Canadian Armed Forces (CAF) personnel, DND requires General Purpose Boots with an outsole and tread design that has been utilized in previously issued operational footwear. In order to qualify "equal to or better performance" of an outsole and tread design, a user acceptance performance evaluation (UAPE) would need to augment a technical evaluation. A UAPE is not included in this solicitation's evaluation as the document is a technical (or "build-to-print") specification.

For this solicitation, DND will not allow outsole and tread designs that deviate from those approved in Annex B, Table V (Outsole and Tread Pattern Design Options).

QUESTION 31:

Can DND grant a three week extension to the published closing date?

ANSWER: DND will not grant an additional extension at this time.

All other terms and conditions remain unchanged.
