Due to the nature of the bid solicitation, bids transmitted by facsimile to OSFI will not be accepted.

#### **2.1 Improvement of Requirement During Solicitation Period**

Should bidders consider that the specifications or Statement of Work contained in the bid solicitation could be improved technically or technologically, bidders are invited to make suggestions, in writing, to the Contracting Authority named in the bid solicitation. Bidders must clearly outline the suggested improvement as well as the reason for the suggestion. Suggestions that do not restrict the level of competition nor favour a particular bidder will be given consideration provided they are submitted to the Contracting Authority at least 10 calendar days before the bid closing date. Canada will have the right to accept or reject any or all suggestions.

### **3. Former Public Servant**

Contracts awarded to public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts with FPS, bidders must provide the information required below before contract award.

#### **Definitions**

For the purposes of this clause, "former public servant" is any former member of a department as defined in the *Financial Administration Act*, R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;

- b. an individual who has incorporated;
- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the *Public Service Superannuation Act* (PSSA), R.S., 1985, c.P-36, and any increases paid pursuant to the *Supplementary Retirement Benefits Act*, R.S., 1985, c.S-24 as it affects the PSSA. It does not include pensions payable pursuant to the *Canadian Forces Superannuation Act*, R.S., 1985, c.C-17, the *Defence Services Pension Continuation Act*, 1970, c.D-3, the *Royal Canadian Mounted Police Pension Continuation Act*, 1970, c.R-10, and the *Royal Canadian Mounted Police Superannuation Act*, R.S., 1985, c.R-11, the *Members of Parliament Retiring Allowances Act*, R.S., 1985, c.M-5, and that portion of pension payable to the *Canada Pension Plan Act*, R.S., 1985, c.C-8.

### **Former Public Servant in Receipt of a Pension**

As per the above definitions, is the Bidder a FPS in receipt of a pension? **Yes ( ) No ( )**

If so, the Bidder must provide the following information, for all FPS in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with Contracting Policy Notice: 2012-2 and the Guidelines on the Proactive Disclosure of Contracts.

## Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? **Yes ( ) No ( )**

If so, the Bidder must provide the following information:

- a. name of former public servant;
- b. conditions of the lump sum payment incentive;
- c. date of termination of employment;
- d. amount of lump sum payment;
- e. rate of pay on which lump sum payment is based;
- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

## 4. Enquiries – Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than ten (10) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

## 5. Extension of Time

If additional time is required by the Bidder, the Contracting Authority may grant an extension at his or her sole discretion.

## 6. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

## PART 3 – BID PREPARATION INSTRUCTIONS

### 1. Bid Preparation Instructions

**Blank Prices:** Bidders are requested to insert "\$0.00" for any item for which it does not intend to charge or for items that are already included in other prices set out in the tables. If the Bidder leaves any price blank, Canada will treat the price as "\$0.00" for evaluation purposes and may request that the Bidder confirm that the price is, in fact, \$0.00. No bidder will be permitted to add or change a price as part of this confirmation. Any bidder who does not confirm that the price for a blank item is \$0.00 will be declared non-responsive.

## Financial Evaluation

4.3.1 The financial evaluation will be conducted by calculating the TOTAL FINANCIAL SCORE using the Pricing Tables in **Attachment 4.2: Financial Evaluation Criteria**, completed by the Bidders and the associated pricing information provided herein. As part of its Bid, a Bidder must provide its proposed Firm, Fixed All-Inclusive per diem rates for the initial Contract Period, Contract Option Period #1, Contract Option Period #2, and Contract Option Period #3 for each of the 2 Resource Job Categories set out in Table #1 of Attachment 4.2.

4.3.2 **EVALUATION AND SCORING PROPOSED PER DIEM RATES-** For each responsive bid following the technical evaluation, the Bidder’s proposed Firm, Fixed All-Inclusive per diem rates will be evaluated using two possible financial evaluation methods for this requirement. The first method will be used if three or more bids are determined responsive (see (a) Per Diem Rate Financial Evaluation - Method A below). The second method will be used if fewer than three bids are determined responsive (see (b) Per Diem Rate Financial Evaluation - Method B below).

(a) **Per Diem Rate Financial Evaluation - Method A:** The following financial evaluation method will be used if three or more bids are determined responsive:

(i) **STEP 1 - ESTABLISHING THE LOWER AND UPPER MEDIAN BAND LIMITS FOR EACH PERIOD AND EACH RESOURCE CATEGORY:** The Contracting Authority will establish, for each period and each Resource Category, the median band limits based on the Firm Fixed All-Inclusive per diem rates provided in the technically responsive bids. For each such Resource Category the median will be calculated using the median function in Microsoft Excel and will represent a range that encompasses any rate to a value of minus (-) 10% of the median, and an upper median rate to a value of plus (+) 40% of the median. When an even number of technically responsive bids have been determined, an average of the middle two rates will be used to calculate the median band limits and for an odd number of technically responsive bids, the middle rate will be used.

(ii) **STEP 2 - POINTS ALLOCATION:** For each period and each Resource Category points will be allocated as follows:

(A) A Bidder’s proposed Firm, Fixed, All-Inclusive per diem rate that is either lower than the established lower median band limit or higher than the established upper median band limit for that period and Resource Category will be allocated 0 points.

(B) A Bidder’s proposed Firm, Fixed, All-Inclusive per diem rate falling within the upper and lower median band limits, for that period and Resource Category, will be allocated points using the following calculation, which will be rounded to two decimal places:

$\frac{\text{Lowest proposed Firm, Fixed All-Inclusive per diem rate within the median band limits}}{\text{Bidder's proposed Firm, Fixed All-Inclusive per diem rate within the medium band limits}}$	X	Maximum Points Assigned at Table 1 below
---	---	--

(C) A Bidder’s proposed Firm, Fixed All-Inclusive per diem rate falling within the established median band limits which is the lowest proposed Firm, Fixed All-Inclusive per diem rate will be allocated the applicable maximum points assigned at Table 1 below.

(iii) **STEP 3 – PER DIEM RATE TOTAL SCORE:** Points allocated under STEP 2 for each period and Resource Category will be added together and rounded to two decimal places to produce a PER DIEM RATE TOTAL SCORE. Bidders will find below an example of a financial evaluation using Method A.

## 2. Basis of Selection

2.1 To be declared responsive, a bid must:

- (a) comply with all the requirements of the bid solicitation;
- (b) meet all mandatory criteria; and
- (c) obtain the required minimum points for the technical evaluation criteria which are subject to point rating.

The rating is performed on a scale of 820 points.

2.2 Bids not meeting (a), (b), and (c) will be declared non-responsive.

2.3 The evaluation will be based on the highest responsive combined rating of technical merit and price. The ratio will be 70% for the technical merit and 30% for the price.

2.4 To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 70%.

2.5 To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of 30%.

2.6 For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.

2.7 Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract.

The table below illustrates an example where all three bids are responsive and the selection of the contractor is determined by a 70/30 ratio of technical merit and price, respectively. The total available points equals 155 and the lowest evaluated price is \$45,000 (45).

3.3 For additional information on security requirements, bidders should consult the "Security Requirements for PWGSC Bid Solicitations - Instructions for Bidders" (<http://www.tpsgc-pwgsc.gc.ca/app-acq/lc-pl/lc-pl-eng.html#a31>) document on the Departmental Standard Procurement Documents Website.

## **PART 5 – CERTIFICATIONS**

Bidders must provide the required certifications and documentation to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply with this request will also render the bid non-responsive or will constitute default under the Contract.

### **1. Mandatory Certifications Required Precedent to Contract Award**

#### **1.1 Federal Contractors Program for Employment Equity – Bid Certification**

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list (<http://www.hrsdc.gc.ca/eng/labour/index.shtml>) available from Human Resources and Skills Development Canada (HRSDC) - Labour's website.

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "FCP Limited Eligibility to Bid" list at the time of contract award.

Canada will also have the right to terminate the Contract for default if a Contractor, or any member of the Contractor if the Contractor is a Joint Venture, appears on the "FCP Limited Eligibility to Bid" list during the period of the Contract, when the Contract is valued at \$1,000,000 and above, Applicable Taxes included.

The Bidder must provide the Contracting Authority with a completed annex Federal Contractors Program for Employment Equity - Certification, before contract award. The certifications listed below should be completed and submitted with the bid but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

#### **2.1 Status and Availability of Resources**

The Bidder certifies that, should it be awarded a contract as a result of the bid solicitation, every individual proposed in its bid will be available to perform the Work as required by Canada's representatives and at the time specified in the bid solicitation or agreed to with Canada's representatives. If for reasons beyond its control, the Bidder is unable to provide the services of an individual named in its bid, the Bidder may propose a substitute with similar qualifications and experience. The Bidder must advise the Contracting Authority of the reason for the substitution and provide the name, qualifications and experience of the proposed replacement. For the purposes of this clause, only the following reasons will be considered as beyond the control of the

Bidder: death, sickness, maternity and parental leave, retirement, resignation, dismissal for cause or termination of an agreement for default.

If the Bidder has proposed any individual who is not an employee of the Bidder, the Bidder certifies that it has the permission from that individual to propose his/her services in relation to the Work to be performed and to submit his/her résumé to Canada. The Bidder must, upon request from the Contracting Authority, provide a written confirmation, signed by the individual, of the permission given to the Bidder and of his/her availability.

    - M. any other constraints that might affect the completion of the task.
- d. **Contractor's Response to Draft Task Authorization:** The Contractor must provide the Technical Authority, within five (5) working days of receiving the draft Task Authorization, the proposed total price for performing the task and a breakdown of that cost, established in accordance with the Basis of Payment specified in the Contract. The Contractor's quotation must be based on the rates set out in the Contract. The Contractor will not be paid for preparing or providing its response or for providing other information required to prepare and validly issue the TA.

**e. Task Authorization Limit and Authorities for Validly Issuing Task Authorizations:**

To be validly issued, a TA must include the following signature(s):

- A. All TA's must be signed by the Contracting Authority.

Any TA that does not bear the appropriate signature(s) is not validly issued by Canada. Any work performed by the Contractor without receiving a validly issued TA is done at the Contractor's own risk. If the Contractor receives a TA that is not appropriately signed, the Contractor must notify the Contracting Authority.

**f. Periodic Usage Reports:**

- i. The Contractor must compile and maintain records on its provision of services to the federal government under validly issued TAs issued under the Contract. The Contractor must provide this data to Canada in accordance with the reporting requirements detailed below. If any required information is not available, the Contractor must indicate the reason. If services are not provided during a given period, the Contractor must still provide a "NIL" report. The Contractor must submit the periodic usage reports on a quarterly basis to the Contracting Authority. From time to time, the Contracting Authority may also require an interim report during a reporting period.
- ii. The quarterly periods are defined as follows:
  - A. April 1 to June 30;
  - B. July 1 to September 30;
  - C. October 1 to December 31; and

**h. Pre-Cleared Resources:**

The Contractor must:

- i. ensure that the specific individuals named in Annex B of this Contract or acceptable alternatives remain available in appropriate quantities for work under the Task Authorizations to be issued in accordance with this Contract, and must also ensure that these individuals maintain any professional qualifications and security levels associated with the corresponding resource categories of the bid solicitation for which they are available; and
- ii. avoid delays associated with the Contract's security requirements by initiating the assessment and security clearance of additional resources by Canada within five (5) business days of Contract award and on an ongoing basis during the Contract Period, in the quantities specified for each resource category in the Annex. Each such resource must meet the minimum qualifications applicable to the resource category for which they are available, as well as the security requirements identified in the Contract. If accepted by Canada, the Contract will be amended to list each such resource by name.

The resources identified in the Contract must be maintained and available in the quantities specified throughout the Contract Period. There is no limit to the number of resources that the Contractor may submit for consideration and assessment on an ongoing basis; however, the submission of alternatives does not relieve the Contractor from its obligation to provide, for a given task, specific individuals agreed to be provided to Canada in a validly issued TA or elsewhere as required by the terms of this Contract.

- i. **Consolidation of TAs for Administrative Purposes:** The Contract may be amended from time to time to reflect all validly issued Task Authorizations to date, to document the Work performed under those TAs for administrative purposes.

## 9. Payment

### 9.1 Basis of Payment

#### a. Basis of Payment

- i. **Professional Services provided under a Task Authorization with a Maximum Price** : For professional services requested by Canada, Canada will pay the Contractor, in arrears, up to the Maximum Price, for actual time worked and any resulting deliverables in accordance with the firm all-inclusive per diem rates set out in Annex B, Basis of Payment, Applicable Taxes extra. Partial days will be prorated based on actual hours worked based on a 7.5-hour workday.

Estimated Cost : [ \$ \_\_\_\_\_ ]

- ii. **Pre-Authorized Travel and Living Expenses** :

For the requirements to travel described in section(s) 3.7 of the Statement of Work in Annex A and individual Task Authorizations, the Contractor will be reimbursed its authorized travel and living expenses reasonably and properly incurred in the performance of the Work required to be done, delivered or performed outside of a radius of 100 kilometers of the "Contractor's place of business" at cost, without any allowance for profit and administrative overhead, in accordance with the meal, private vehicle and incidental expenses provided in Appendices B, C and D of the **National Joint Council Travel Directive**; and with the other provisions of the directive referring to "**travellers**", rather than those referring to "**employees**", to a limitation of expenditure of [ \$ \_\_\_\_\_ *insert the amount at contract award* ]. Customs duty are included, plus Applicable Taxes.

All travel must have the prior authorization of the "Technical" Authority.

The authorized travel and living expenses will be paid upon submission of an itemized statement supported by receipt vouchers.

Canada will not accept any travel and living expenses for any travel required between the Contractor's place of business and base location of work or any relocation of resources required to satisfy the terms of the Contract.

All payments are subject to government audit. Estimated Cost : (TBD) upon contract award.

Time spent by a contracted individual traveling to and from specific pre-authorized work assignments (not commuting) that are more than 100 kilometers from the individual's work location may be billed at 50% of the firm per diem rate. Time for travel which is more or less than a day shall be prorated to reflect actual time for travel in accordance with the following formula:

$$\frac{\text{Hours of travel} \times 50\% \text{ of firm all-inclusive per diem rate}}{7.5 \text{ hours}}$$

- iii. **Competitive Award** : The Contractor acknowledges that the Contract has been awarded as a result of a competitive process. No additional charges will be allowed to compensate for errors,

- oversights, misconceptions or underestimates made by the Contractor when bidding for the Contract.
- iv. **Professional Services Rates** : In Canada's experience, bidders from time to time propose rates at the time of bidding for one or more Resource Categories that they later refuse to honour, on the basis that these rates do not allow them to recover their own costs and/or make a profit. This denies Canada of the benefit of the awarded contract. If the Contractor does not respond or refuses to provide an individual with the qualifications described in the Contract (or proposes instead to provide someone from an alternate category at a different rate), whether or not Canada terminates the Contract as a whole, Canada may impose sanctions or take other measures in accordance with the PWGSC Vendor Performance Policy (or equivalent) then in effect, which may include an assessment that results in conditions applied against the Contractor to be fulfilled before doing further business with Canada, or full debarment of the Contractor from bidding on future requirements.
  - v. **Purpose of Estimates** : All estimated costs contained in the Contract are included solely for the administrative purposes of Canada and do not represent a commitment on the part of Canada to purchase services in these amounts. Any commitment to purchase specific amounts or values of services are described elsewhere in the Contract.
- b. **Limitation of Expenditure** Canada's total liability to the Contractor under the Contract must not exceed the amount set out on page one of the Contract, less any Applicable taxes. With respect to the amount set out on page one of the Contract, Customs duties are included and Goods and Services Tax or Harmonized Sales Tax is included, if applicable. Any commitments to purchase specific amounts or values of goods or services are described elsewhere in the Contract.
- i. No increase in the total liability of Canada or in the price of the Work resulting from any design changes, modifications or interpretations of the Work, will be authorized or paid to the Contractor unless these design changes, modifications or interpretations have been approved, in writing, by the Contracting Authority before their incorporation into the Work. The Contractor must not perform any work or provide any service that would result in Canada's total liability being exceeded before obtaining the written approval of the Contracting Authority. The Contractor must notify the Contracting Authority in writing as to the adequacy of this sum when:
    - A. It is 75 percent committed, or
    - B. 4 months before the Contract expiry date, or
    - C. as soon as the Contractor considers that the contract funds provided are inadequate for the completion of the Work, whichever comes first.
  - ii. If the notification is for inadequate contract funds, the Contractor must provide to the Contracting Authority a written estimate for the additional funds required. Providing this information does not increase Canada's liability.
- c. **Method of Payment for Task Authorizations with a Maximum Price** : For each Task Authorization validly issued under the Contract that contains a maximum price :
- i. Canada will pay the Contractor no more frequently than once a month in accordance with the Basis of Payment. The Contractor must submit time sheets for each resource showing the days and hours worked to support the charges claimed in the invoice.
  - ii. Once Canada has paid the maximum TA price, Canada will not be required to make any further payment, but the Contractor must complete all the work described in the TA, all of which is required to be performed for the maximum TA price. If the work described in the TA is completed in less time than anticipated, and the actual time worked (as supported by the time sheets) at the rates set out in the Contract is less than the maximum TA price, Canada is only required to pay for the time spent performing the work related to that TA.

**d. Time Verification**

Time charged and the accuracy of the Contractor's time recording system are subject to verification by Canada, before or after payment is made to the Contractor. If verification is done after payment, the Contract must repay any overpayment, at Canada's request.

**f. No Responsibility to Pay for Work not performed due to Closure of Government Offices**

- i. Where the Contractor, its employees, subcontractors, or agents are providing services on government premises under the Contract and those premises are inaccessible because of the evacuation or closure of government offices, and as a result no work is performed, Canada is not responsible for paying the Contractor for work that otherwise would have been performed if there had been no evacuation or closure.
- ii. If, as a result of any strike or lock-out, the Contractor or its employees, subcontractors or agents cannot obtain access to government premises and, as a result, no work is performed, Canada is not responsible for paying the Contractor for work that otherwise would have been performed if the Contractor had been able to gain access to the premises.

**9.2 Method of Payment**

**Monthly Payment**

SACC Manual clause H1008C (2008-05-12) Monthly Payment

## 11. Certifications

### 11.1 Compliance

Compliance with the certifications provided by the Contractor in its bid is a condition of the Contract and subject to verification by Canada during the term of the Contract. If the Contractor does not comply with any certification or it is determined that any certification made by the Contractor in its bid is untrue, whether made knowingly or unknowingly, Canada has the right, pursuant to the default provision of the Contract, to terminate the Contract for default.

### 11.2 Federal Contractors Program for Employment Equity - Default by the Contractor

The Contractor understands and agrees that, when an Agreement to Implement Employment Equity (AIEE) exists between the Contractor and HRSDC-Labour, the AIEE must remain valid during the entire period of the Contract. If the AIEE becomes invalid, the name of the Contractor will be added to the "FCP Limited Eligibility to Bid" list. The imposition of such a sanction by HRSDC will constitute the Contractor in default as per the terms of the Contract.

The Contractor must prepare and implement the plan at its own expense.

## 16. Safeguarding Electronic Media

## 17. Representations and Warranties

The Contractor made statements regarding its and its proposed resources experience and expertise in its bid that resulted in the award of the Contract. The Contractor represents and warrants that all those statements are true and acknowledges that Canada relied on those statements in awarding the Contract. The Contractor also represents and warrants that it has, and all its resources and subcontractors that perform the Work have, and at all times during the Contract Period they will have, the skills, qualifications, expertise and experience necessary to perform and manage the Work in accordance with the Contract, and that the Contractor (and any resources or subcontractors it uses) has previously performed similar services for other customers.

## Annex A – Statement of Work

### 1. Requirement

The Security & Facilities Services (SFS) Division of the Office of the Superintendent of Financial Institutions has a requirement for the provision of professional services, on an “as and when requested” basis, in the National Capital Region (NCR), to support the delivery of Physical Security services within OSFI over the next two to five fiscal years.

### 2. Background

#### 2.1 Office of the Superintendent of Financial Institutions (OSFI)

The Office of the Superintendent of Financial Institutions (OSFI) regulates and supervises financial institutions and private pension plans subject to federal oversight, to help minimize undue losses to depositors and policyholders and, thereby, to contribute to public confidence in the Canadian financial system.

Detailed information about OSFI, including our mission and objectives, history, organization and how we regulate can be found at OSFI’s website [www.osfi-bsif.gc.ca](http://www.osfi-bsif.gc.ca).

The Policy on Government Security, as well as other policy tools, outline requirements for protecting government assets and information from compromise. In addition to other measures, OSFI has implemented security access controls to meet these requirements and to mitigate risk.

#### 2.2 OSFI’s SFS Organization

OSFI’s SFS organization is responsible for maintaining and enhancing OSFI’s corporate security posture. SFS’ business functions and services include:

- Facilities management
- Materials management
- Security training & awareness
- Physical security
- Contract security
- Personnel security
- Security policies, directives, standards and guidelines
- Emergency management
- Business Continuity

SFS recently completed a review of its current resourcing levels and its anticipated requirements for contract resources over the next two to five years. As a result of this exercise SFS has identified the need to establish contract arrangements for the provision of resources in three distinct areas of requirement: Personnel Security; Physical Security; and Security Project Management and Business Analysis.

## Annex F – Task Authorization Process

- 1.1 It is understood and agreed by the Contractor that the Work to be provided under a Task Authorization is on an "as and when requested" basis and it is further agreed that:
- a. an obligation will come into force only when there is an approved Task Authorization issued and only to the extent designated in the Task Authorization;
  - b. this Contract does not oblige OSFI to approve any Task Authorization or order any services described in the Statement of Work or to spend the associated estimated expenditure; and
  - c. unless otherwise specified in the Task Authorization, any and all approved Task Authorizations shall incorporate all of the articles, terms and conditions contained or referenced in this Contract. The Work provided under the approved Task Authorization(s) shall be paid in accordance with the Basis of Payment contained in the Contract. The amount paid in relation to a specific task authorization must not exceed the LIMITATION OF EXPENDITURE - TASK AUTHORIZATION, and the total of all task authorizations issued must not exceed the cumulative financial limitation shown in LIMITATION OF EXPENDITURE - FOR THE TOTAL OF ALL TASK AUTHORIZATIONS, Customs duty included where applicable, FOB Destination (packaging and shipping charges included where applicable), HST extra. All Task Authorization payments are subject to government audit.
- 1.2 The Task Authorization Form will normally contain the following information:
- a. Task Authorization (TA) number;
  - b. Identification of the Technical Authority responsible for directing and accepting the work associated with the TA;
  - c. Financial coding details;
  - d. A Statement of Work (SOW) including;
    - Details of the work activities to be performed within the scope of the TA;
    - Required number of resources in each PS resource category and level of effort / maximum number of days (if "Per Diem" Based);
    - Description of deliverables to be submitted and acceptance criteria;
    - Work process standards, guidelines and criteria;
    - Schedule indicating completion dates for major work activities and/or submission dates for deliverables; and
    - Status / progress reporting requirements, if any, including frequency and content.
  - e. Period Of Services (beginning and end dates for delivery of work);
  - f. Travel Requirements (if any);
  - g. Any other constraints which might affect the work;
  - h. TA Basis (i.e. Per Diem / Estimated Cost or Task Based / Firm Price);
  - i. Required details for inclusion in subsequent Firm Price Proposals; and
  - j. Response Due Date (i.e. date by which TA Proposal is required from Contractor).
- 1.3 Task Authorizations will be raised as required during the period of the Contract according to the following process:
- a. The OSFI Project Authority will initiate the Task Authorization (TA) process by sending a written Statement of Work (SOW) to the Contract Authority who will submit the SOW to the Contractor's designated representative for response. The TA will include the required category and level of personnel associated with this request, as well as the estimated level of effort in days.
  - b. The Contractor will have five (5) business days to provide a proposed resource that meets both the mandatory criteria (as outlined in the SOW) and the specific skill set required for this TA.

The Contractor will also be required to propose a firm per diem rate for the resource proposed for the TA. Note that the firm per diem rate may not exceed the ceiling rate contained in the contract.

In addition, if the proposed TA resource was not proposed and evaluated as a resource in the Bidder's original RFP response, the Contract Authority may request that the Contractor provide a completed resource evaluation grid. (Note: If required, the Contractor will use the applicable evaluation grids provided in the RFP or new grids for other PS categories as provided at the time of the TA.) The Contractor will be required to complete all "certifications" contained on the TA Form at time of TA approval.

- c. Upon receipt of the TA Proposal, the Contract Authority will review and evaluate the proposal including proposed resources if applicable. The Contract Authority may contact the references provided for the proposed resources. (Note: OSFI may, at its discretion, conduct references checks after interviewing the proposed resource.) The Contract Authority will meet with the Contractor as may be required to clarify the proposal. Should the response, or proposed resources, be deemed unacceptable by the Contract Authority, the TA will be returned to the Contractor for rework with any deficiencies and/or concerns identified.
- d. Proposed resources determined to be acceptable to OSFI based on the initial evaluation may be required to participate in an interview with the Contract Authority, or his/her designated representative. The Contractor will arrange for the candidate to attend the interview at a time that is mutually convenient for all parties. The Contractor may attend the interview as an observer. Candidate resources will be interviewed to validate the candidate's knowledge and experience as stated in the TA Proposal.
- e. Once the TA Proposal has been accepted by the Contract Authority, the Security Clearance of the proposed personnel will be verified by the OSFI security officer as required. The Certifications (section 6.3) must be completed by Contractor and the TA form must be signed by both parties (section 7). After the TA Proposal has been accepted by all parties (as applicable) the start date will be confirmed.

- 1.4 The Contractor shall not commence work until an approved Task Authorization Form has been received from the Contract Authority. The Contractor acknowledges that any or all Work performed in the absence of the aforementioned approved Task Authorization Form, will be done at the Contractor's own risk, and OSFI shall not be liable for payment therefore, unless or until an approved Task Authorization Form is provided. In the event that the Contractor elects to proceed with the performance of any Work that is outside an approved Task Authorization, in anticipation of the issuance, or a modification to, a Task Authorization, or otherwise, the Contractor acknowledges that it does so at its own risk.
- 1.5 Termination of a TA for Convenience: OSFI shall have the right to terminate all or any part of an approved Task Authorization for convenience of OSFI (in accordance with the provision of this Contract, but without termination of this Contract in its entirety, unless otherwise specified), upon two days written notice to the Contractor. The Contractor shall be entitled to be paid for all work performed pursuant to the TA in accordance with the Basis of Payment up to the date that the termination is effective.
- 1.6 Termination for Default: The OSFI Contracting Authority may terminate for default (in accordance with the provisions of this Contract, but without terminating this Contract in its entirety, unless specified) all or any part of an approved Task Authorization upon one working days notice period in writing to the Contractor.
- 1.7 Termination for Non Performance:

1.7.1 The Contracting Authority may terminate the Contract in its entirety, upon five business days written notice to the Contractor, for Task Authorization (TA) Non Performance. Incidents of TA Non Performance include but are not limited to:

- a) Failure to respond to OSFI with a TA proposal within the timeframe stipulated in article 1.3 b. of the TA Process (above);
- b) Failure to propose at least one qualified resource in response to a SOW (i.e. TA request) from OSFI;
- c) Failure to provide an equivalent or higher, qualified resource to replace a resource prior to completion of an TA (Note: The resource may be replaced at the request of OSFI, the Contractor or the individual resource);
- d) Failure to provide monthly contract status reports as stipulated in article 7.2 e. of the Contract and/or
- e) Failure to adhere to the OSFI TA process (set out in this Annex) in any manner.

If during the initial six month period following contract award, or the four months following issue of the first approved TA, the Contract is terminated in accordance with this clause, even if the bid validity period has passed, OSFI has the right (but not the obligation) to ask the next-ranked responsive bidder(s) if its bid remains open for acceptance and to award to the next-ranked bidder who confirms its bid remains valid.
