In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

Definitions

For the purposes of this clause,"former public servant" is any former member of a department as defined in the *Financial Administration Act*, R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the <u>Public Service Superannuation</u> <u>Act</u> (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the <u>Supplementary</u> <u>Retirement Benefits Act</u>, R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the <u>Canadian Forces Superannuation Act</u>, R.S., 1985, c. C-17, the <u>Defence</u> <u>Services Pension Continuation Act</u>, 1970, c. D-3, the <u>Royal Canadian Mounted Police Pension</u> <u>Continuation Act</u>, 1970, c. R-10, and the <u>Royal Canadian Mounted Police Superannuation Act</u>, R.S., 1985, c. - b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with <u>Contracting Policy Notice</u>: <u>2012-2</u> and the <u>Guidelines on the Proactive Disclosure of Contracts</u>.

Work Force Adjustment Directive

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

4. Enquiries – Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than seven (7) business days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

5. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in the Province of Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. Annex D Evaluation Criteria

1.0 Technical Evaluation:

- 1.1 The following elements of the proposal will be evaluated and scored in accordance with the following evaluation criteria.
 - Mandatory Technical Criteria

It is <u>imperative</u> that the proposal <u>address each of these criteria</u> to demonstrate that the requirements are met.

- 1.2 LISTING EXPERIENCE WITHOUT PROVIDING ANY SUBSTANTIATING DATA TO SUPPORT WHERE, WHEN AND HOW SUCH EXPERIENCE WAS OBTAINED WILL RESULT IN THE STATED EXPERIENCE NOT BEING CONSIDERED FOR EVALUATION PURPOSES.
- 1.3 All experience must be strictly work-related. Time spent during education and/or training will not be considered, unless otherwise indicated.
- 1.4 Experience must be demonstrated through a history of past projects, either completed or on-going.
- 1.5 References must be provided for each project/employment experience.
 - I. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a Public Servant**, the reference must be a Public Servant who had a supervisory role over the proposed resource during the stated employment.
 - II. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a consultant**, the reference must be the Public Servant who was identified as the Project Authority of the project on which the proposed resource acquired the experience.
 - III. References must be presented in this format:
 - a. Name;
 - b. Organization;
 - c. Current Phone Number; and
 - d. Email address if available

1.6 Response Format

- I. In order to facilitate evaluation of proposals, it is recommended that bidders' proposals address the mandatory criteria in the order in which they appear in the Evaluation Criteria and using the numbering outlined.
- II. Bidders are also advised that the month(s) of experience listed for a project or experience whose timeframe overlaps that of another referenced project or experience will only be counted once. For example: Project 1 timeframe is July 2001 to December 2001; Project 2 timeframe is October 2001 to January 2002; the total months of experience for these two project references is seven (7) months.
- III. For any requirements that specify a particular time period (e.g., 2 years) of work experience, CSC will disregard any information about experience if the technical bid does not include the required month and year for the start date and end date of the experience claimed.
- IV. CSC will also only evaluate the duration that the resource actually worked on a project or projects (from his or her start date to end date), instead of the overall start and end date of a project or a combination of projects in which a resource has participated.

MANDATORY TECHNICAL CRITERIA - 21422-20-3250265

#	Mandatory Technical Criteria	Bidder Response Description (include location in bid)	Met/Not Met
M1	The proposed resource must hold a current license in good standing from the provincial licensing body for physicians and surgeons in the province where services are to be provided. Bidders must include a copy of the license in their bid.		
M2	The proposed resource must be a current member in good standing with the Royal College of Physicians and Surgeons of Canada with a speciality in Psychiatry. Bidders must provide a copy of the membership with a specialty in psychiatry with their bid.

Service correctionnel Canada Cadre national relatif aux soins de santé essentiels

1. Background / Contexte

Correctional Service Canada (CSC) is mandated, under the Corrections and Conditional Release Act (CCRA), to "provide every inmate with essential health care and reasonable access to non essential mental health care"

The Commissioner's Directives 800 Health Services and its associated guidelines are the key references on essential health services (Clinical services, mental health and public health services).

The mission of Health Services is to provide offenders with efficient and effective health services that *encourage individual responsibility, promote healthy reintegration and contribute to safe communities.*

Health care services must respect gender, cultural, religious and linguistic differences, and be responsive to the special needs of women, Aboriginal peoples, persons requiring mental health care and other groups.

In order to support inmates in taking responsibility for proactively safeguarding their health, CSC provides:

- information and education on health promotion and disease prevention
- direct health care services

Le Service correctionnel Canada (SCC) est tenu, aux termes de la *Loi sur le système correctionnel et la mise en liberté sous condition*, de veiller « à ce que chaque détenu reçoive les soins de santé essentiels et qu'il ait accès, dans la mesure du possible aux soins qui peuvent faciliter sa réadaptation et sa réinsertion sociale ».

Les directives du commissaire de la série 800 – Services de santé et les lignes directrices connexes constituent les principaux documents de référence sur les services de santé essentiels (services cliniques, santé mentale et santé publique).

La mission des Services de santé est de fournir aux délinquants des services de santé efficients et efficaces *qui permettent de promouvoir la responsabilité individuelle, favoriser la saine réinsertion sociale et contribuer à la sécurité des collectivités.*

Les Services de santé doivent respecter les différences entre les sexes, les cultures et les groupes linguistiques et tenir compte des besoins propres aux femmes, aux personnes Autochtones, aux personnes nécessitant des soins en santé mentale et d'autres groupes.

Pour aider les détenus à assumer leurs responsabilités afin qu'ils prennent des mesures proactives pour protéger leur santé, le SCC fournit :

- de l'information et de la formation sur la promotion de la santé et la prévention des maladies;
- des soins de santé directs.

July 2015/juillet 2015

Correctional Service Canada	Service correctionnel Canada
National Essential Health Services Framework	Cadre national relatif aux soins de santé essentiels

Health Services are provided in ambulatory Health Care Centres in institutions, regional hospitals and regional treatment / psychiatric centres. Inmates may have to go to the community for emergency services, specialized health care services and for hospitalization that cannot be accommodated in CSC's regional hospitals. In CSC, health care is provided by a wide range of regulated and nonregulated health professionals.

In broad terms, health care means medical, dental, mental health care and public health services. During the period of incarceration, inmates are provided with a range of coordinated health services that are accessible, affordable, and appropriate to the correctional environment.

Within CSC the comprehensive health services provided to inmates are categorized into three (non mutually exclusive) service streams: clinical services, mental health services and public health services. Clinical Services refers to assessment, diagnosis and treatment of acute and chronic physical illnesses. Mental health care includes assessment, intervention, treatment and support services and discharge planning provided to inmates with significant mental health needs in the areas of emotion, thinking and/or behaviour. Les services de santé sont fournis dans les centres de soins ambulatoires à l'intérieur des établissements, dans les hôpitaux régionaux et dans les centres de traitement / psychiatriques régionaux. Il est possible que les détenus doivent se rendre dans la collectivité pour y recevoir des soins d'urgence, des soins spécialisés ou pour y être hospitalisés, lorsque cela est impossible dans un hôpital régional du SCC. Au SCC, les soins de santé sont dispensés par des professionnels de la santé réglementés et non réglementés.

En termes généraux, les soins de santé comprennent les soins médicaux, dentaires, les soins de santé mentale et les services de santé publique. Pendant la durée de leur incarcération, les détenus ont droit à tout un éventail de services de santé coordonnés qui sont accessibles, abordables et adaptés au milieu correctionnel.

Au sein du SCC, les services de santé complets offerts aux détenus sont administrés selon trois catégories : les services cliniques, la santé mentale et la santé publique. Les services cliniques visent le dépistage, le diagnostic et le traitement des maladies aiguës ou chroniques. Les soins de santé mentale comprennent le dépistage, l'intervention, le traitement et les services de soutien ainsi que la planification de la continuité des soins offerts aux détenus qui ont des besoins importants en santé mentale pour ce qui touche les émotions, la pensée ou le comportement.

Correctional Service Canada National Essential Health Services Framework	Service correctionnel Canada Cadre national relatif aux soins de santé essentiel
Public health consists of the services and resources on a variety of topics (mental health, wellness, infectious diseases etc) provided to inmates related to health promotion and education; disease prevention, control and management of infectious diseases and discharge planning for community reintegration.	La santé publique consiste en les services et ressources fournis aux détenus en ce qui concerne la promotion et l'éducation en matière de santé; la prévention, le contrôle et la gestion des maladies infectieuses; l'épidémiologie et la surveillance ainsi que la planification de la continuité des soins en vue de la réinsertion sociale dans la collectivité.
The purpose of this Framework and the <u>National</u> <u>Formulary</u> is the promotion of quality and consistency in health services across the country, and allows CSC to make decisions based on monitoring and analyzing the effectiveness and efficiency of essential health services.	Le but de ce Cadre et le <u>Formulaire national</u> et de promouvoir la qualité et l'uniformité des services de soins de santé à travers le pays et il permet au SCC de prendre des décisions fondées sur la surveillance et l'analyse de l'efficacité et de l'efficience des services de santé essentiels.

2. CSC National Advisory Committee on Essential Health Services / Comité consultatif national sur les services de santé essentiels du SCC

A National Advisory Committee on Essential Health Services was established in 2009 to provide an effective ongoing oversight mechanism to ensure accountability, consistency, cost effectiveness and best practices specific to the needs of CSC's population.

The Committee is responsible for making recommendations to the Health Services Executive Team on new and emerging services and technologies and enhances national consistency through revision and updates to the Framework. Un Comité consultatif national sur les services de santé essentiels a été mis sur pied en 2009 afin de fournir un mécanisme de surveillance continue pour assurer la responsabilisation, l'uniformité, la rentabilité et l'établissement de pratiques exemplaires propres aux besoins de la population du SCC.

Le Comité formule des recommandations à l'intention de l'Équipe de direction des Services de santé sur les nouveaux services et technologies et accroît l'uniformité à l'échelle nationale grâce à des révisions et des mises à jour du cadre.

3. Access to essential health services / Accès aux services essentiels

There are several ways that health services may be accessed. Inmates may initiate access by submitting, in confidence, a request for health services (clinical services, mental health, public health), and indicating the reason for the request. Inmate requests are reviewed, prioritized according to urgency, and services are provided by a health care provider.

An inmate may also be referred to Health Services by any staff in the institution.

Some Health Care Centers have "drop in hours" where inmates can be seen by showing up at the Centre. Visits with Physicians/Specialists (including Psychiatrists) and other health care professionals are pre-booked according to need and institutional operational requirements. When inmates are referred to community medical/psychiatric services they are subject to the same waiting periods as community members. The use of private clinics for the provision of essential health services is not permitted in CSC. Accessing community services is also subject to the operational requirements of the institution. Il y a plusieurs voies d'accès aux services de santé. Les détenus peuvent présenter, à titre confidentiel, une demande de services de santé (services cliniques, santé mentale, santé publique) en précisant le motif de leur demande. Ces demandes sont examinées et classées par ordre de priorité en fonction de leur niveau d'urgence. Un fournisseur de soins de santé dispense ensuite des services au détenu.

Un détenu peut aussi être aiguillé vers les Services de santé à la demande d'un membre du personnel de l'établissement.

Certains centres de services de santé ont des heures de cliniques sans rendez-vous durant lesquelles les détenus peuvent être vus lorsqu'ils se présentent au centre de santé. Les rendez-vous avec des médecins ou des spécialistes (y compris des psychiatres) sont pris à l'avance en fonction des besoins et des exigences opérationnelles de l'établissement. Lorsque des détenus sont aiguillés vers des services médicaux/psychiatriques à l'extérieur des établissements, ils sont assujettis au même délai d'attente que les membres de la collectivité. Le recours aux cliniques privées pour l'obtention de services de santé essentiels. n'est pas permis au SCC. L'accès aux services offerts dans la collectivité est également en fonction des exigences opérationnelles de l'établissement.

Essential health services are funded by CSC for offenders residing in Community Correctional Centres in circumstance where Provincial Coverage is not available. Le SCC n'est pas tenu de financer les services de santé pour les délinquants qui résident dans les centres résidentiels communautaires. Les exceptions doivent être autorisées au préalable et approuvées par écrit par le directeur régional des Services de santé ou son délégué.

Des services en santé mentale limités (travailleurs sociaux cliniques, infirmiers en santé mentale et psychologues) sont offerts dans la collectivité à certains endroits aux délinquants ayant des besoins importants en santé mentale.

Appendix B. CSC's Dental Service Standards / Annexe B. Normes de services dentaires du SCC

CSC's Dental Service Standards were reviewed and revised in 2012/2013 fiscal year in collaboration with a National Dental Working Group which was comprised of 5 CSC Institutional Dentists and Regional and National Health Services professionals and senior managers. A scan of provincial and federal dental plans was conducted and the information was utilized to help inform the working group during the revision.

- It relies on active participation and individual responsibility of the patient/inmate to:
 - a) practice good oral hygiene
 - b) attend scheduled appointments
- It provides management of acute and chronic oral disease
- It provides information and education on oral health hygiene and the prevention of oral disease

Les normes de services dentaires au SCC ont été révisées en 2012-2013 avec la collaboration d'un groupe de travail national composé de cinq dentistes travaillant dans des établissements ainsi que de professionnels des Services de santé et de hauts dirigeants des administrations régionales et nationale. Les régimes de soins dentaires du gouvernement fédéral et des provinces ont été examinés et ont guidé les membres du groupe de travail durant leur révision.

1. Commercial General Liability Insurance:

- 1.1 The Contractor must obtain Commercial General Liability Insurance, and maintain it in force throughout the duration of the Contract, in an amount usual for a contract of this nature, but for not less than \$2,000,000 per accident or occurrence and in the annual aggregate.
- 1.2 The Commercial General Liability policy must include the following:
 - a) Additional Insured: Canada is added as an additional insured, but only with respect to liability arising out of the Contractor's performance of the Contract. The interest of Canada should read as follows: Canada, as represented by the Correctional Service of Canada.
 - b) Bodily Injury and Property Damage to third parties arising out of the operations of the Contractor.
 - c) Products and Completed Operations: Coverage for bodily injury or property damage arising out of goods or products manufactured, sold, handled, or distributed by the Contractor and/or arising out of operations that have been completed by the Contractor.
 - d) Personal Injury: While not limited to, the coverage must include Violation of Privacy, Libel and Slander, False Arrest, Detention or Imprisonment and Defamation of Character.
 - e) Cross Liability/Separation of Insureds: Without increasing the limit of liability, the policy must protect all insured parties to the full extent of coverage provided. Further, the policy must apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.
 - f) Blanket Contractual Liability: The policy must, on a blanket basis or by specific reference to the Contract, extend to assumed liabilities with respect to contractual provisions.
 - g) Employees and, if applicable, Volunteers must be included as Additional Insured.
 - h) Employers' Liability (or confirmation that all employees are covered by Worker's compensation (WSIB) or similar program)
 - i) Broad Form Property Damage including Completed Operations: Expands the Property Damage coverage to include certain losses that would otherwise be excluded by the standard care, custody or control exclusion found in a standard policy.
 - j) Notice of Cancellation: The Insurer will endeavour to provide the Contracting Authority thirty (30) days written notice of policy cancellation.
 - k) If the policy is written on a claims-made basis, coverage must be in place for a period of at least 12 months after the completion or termination of the Contract.
 - I) Owners' or Contractors' Protective Liability: Covers the damages that the Contractor becomes legally obligated to pay arising out of the operations of a subcontractor.

2.1 Pursuant to subsection 5(d) of the Department of Justice Act, S.C. 1993, c. J-2, s.1, if a suit is instituted for or against Canada which the Insurer would, but for this clause, have the right to pursue or defend on behalf of Canada as an Additional Named Insured under the insurance policy, the Insurer must promptly contact the Attorney General of Canada to agree on the legal strategies by sending a letter, by registered mail or by courier, with an acknowledgement of receipt

For the province of Quebec, send to: Director Business Law Directorate, Quebec Regional Office (Ottawa), Department of Justice, 284 Wellington Street, Room SAT-6042, Ottawa, Ontario, K1A 0H8

2.2 A copy of the letter must be sent to the Contracting Authority. Canada reserves the right to codefend any action brought against Canada. All expenses incurred by Canada to co-defend such actions will be at Canada's expense. If Canada decides to co-defend any action brought against it, and Canada does not agree to a proposed settlement agreed to by the Contractor's insurer and the plaintiff(s) that would result in the settlement or dismissal of the action against Canada, then Canada will be responsible to the Contractor's insurer for any difference between the proposed settlement amount and the amount finally awarded or paid to the plaintiffs (inclusive of costs and interest) on behalf of Canada.

3. Medical Malpractice Liability Insurance:

- 3.1 The Contractor must obtain Medical Malpractice Liability Insurance in an amount of \$10,000,000.00, and maintain it in force throughout the duration of the Contract, in an amount usual for a contract of this nature, but for not less than \$1,000,000 per loss and in the annual aggregate, inclusive of the defence costs.
- 3.2 Coverage is for what is standard in a Medical Malpractice policy and must be for claims arising out of the rendering or failure to render medical services resulting in injury, mental injury, illness, disease or death of any person caused by any negligent act, error or omission committed by the Contractor in or about the conduct of the Contractor's professional occupation or business of good samaritan acts.
- 3.3 If the policy is written on a claims-made basis, coverage must be in place for a period of at least 12 months after the completion or termination of the Contract.
- 3.4 Notice of Cancellation: The Contractor will provide the Contracting Authority thirty (30) days prior written notice of policy cancellation or any changes to the insurance policy.
