

PROJECT TITLE

MOOSONEE, ONTARIO
PUBLIC SERVICES AND PROCUREMENT CANADA
BUILDING DEMOLITION
MISTIK BLVD. & MEECHIM ST.

Addendum No.1, dated 2019-08-23

QUESTIONS AND ANSWERS

1. "Is there any road way to reach this location for transferring heavy equipment and trucks?"

Answer: Road access for heavy equipment and trucks is not available. The seasonal winter road into Moosonee is not accessible to commercial vehicles. It is suggested that the contractor plan to transport their heavy equipment by train from Cochrane, Ontario to the project site in Moosonee. This train is operated by Ontario Northland. The contractor is responsible for coordinating and arranging transportation for all equipment and vehicles necessary to complete this work.

2. "Is there any recycling yard close to this location?"

Answer: A steel recycling yard exists approximately 2km from the project site, on David Wayne Dr. The local landfill site is located approximately 8km from the project site. The contractor will be responsible for identifying and selecting an appropriate waste disposal facility and ensuring proper disposal methods.

3. "We tried the google map but its not showing any direction to this location."

Answer: Access to Moosonee is available by plane via the Moosonee Airport (YMO) and by train as identified in Question 1. The contractor is responsible for coordinating their own navigation and transportation to the project site.
