AMENDMENT 1

This amendment is issued in response to the following.

1. Bidder Questions

Question 1:

Based on the remotest of the berthing locations for the vessels the initiation of repairs at 3 hours does this include the travel time to reach the location? This can take up to 10 hours to reach for the island of NL & Lab.

Answer 1:

Yes. It is important to have vessel dive support services primarily in North Sydney within a 3-hour window on an emergency basis.

Question 2:

For Pricing sheet Line item A2 is this per diver or 2 divers? Under CSA diving standards a minimum of four man crew is required which will consist of a dive supervisor two divers and tender. The additional diver cannot be covered in assistants (item A3).

Answer 2:

Yes, there must be two divers minimum on the crew. Tender is a craft or dive platform to dive from. It is expected that the company will show up with the equipment capable to perform the job. Please see revised Basis of Payment below.

Question 3:

Item A7 is this to mean including the four man dive crew or just the price for video/stills equipment only?

Answer 3:

A7 is just the price for the video/stills equipment only.

Question 4:

What about the repair items that could be required for repairs/plugs/coating/welding is this to be included in the hourly wage or address on a need basis if required?

Answer 4:

We will address on a need basis.

Question 5:

When does the time begin for billing? Is it based on time we leave our operational base or does it start on arrival to Port Aux Basques and North Sydney?

Answer 5:

Work begins when contractor arrives on site.
