### 2. MODIFICATION TO DRAWINGS

#### INSERT:

Drawing ASK01 Section Detail – Window Head Trim Flashing for details on required window and door head flashings. Replace all damaged or deteriorated flashings at existing windows and door openings (see folder DSP 001 5P201-19-0073).

### 3. QUESTIONS AND ANSWERS

Q1. There are window flashings that have to be replaced at the cottage. In order to do this, you have to remove several runs of clapboard directly above the current window flashing in order to properly mount the new ones to the house structure. Are there any current procedures or protocols on the removal and re-installation of the existing clapboard? Do we have to keep the original nails? What if the clapboard breaks?

A1. Drawing ASK01 Section Detail (see folder DSP 001 5P201-19-0073).

Q2. Can we use tarpaulin hoardings on more than one side of the cottage at a time?
