ADDENDUM #2

Subject: **Request for Proposals T8080-190125/A**
Composite Cylinder Study

No consideration will be given for extras and/or changes because the tenderer was not familiar with the contents of this Addendum.

The following question have been received from potential Bidders about the subject Request for Proposals. The purpose of this Addendum to the Request for Proposals is to summarize the questions and answers for the information of all potential Bidders.

Question #1

Reference - Page 33 - Section 3.2 – Please clarify

Answer #1

Page number 33, clause 3.2 states the following: "The Contractor shall procure the required number of used TC-3CCM cylinders from cylinder users such as first responder organizations..."

"First responders" refers to any organization with appropriate resources who have specialized training and would be among the first to arrive and provide assistance at the scene of an emergency, such as fire services personnel or paramedics. However, first responders are only one example of organizations that may have cylinders that meet the requirements of the project, and other organizations that maintain inventories of TC-3CCM cylinders would also be acceptable.

It is up to the Bidder to decide where to obtain cylinders. Any cost associated with procuring used cylinders must be included in the financial bid..

Bidders are to acknowledge this Addendum by signing in the space provided below and enclosing a copy of this document with their proposal.

All other terms and conditions of the Request for Proposals remain unchanged.
