Amendment 002

This amendment is being raised to distribute questions and answers.

A. Questions & Answers

Q6. Can you provide more clarification on what is required if the work is not completed before winter?

A6. In the event that the Contract is not completed before winter weather prohibits further construction progress and the Contractor must shutdown to return in Spring 2020, the following conditions will apply:

- The Contractor will be permitted to leave and secure equipment and/or construction materials in an area of the staff parking lot 50m² in size (roughly equivalent to three parking stalls). The remainder of the parking lot must be left open and available for public and stakeholder parking and hard surfaced to allow for winter snow clearing by Parks Canada. Parks Canada is not responsible for the theft or damage of any equipment or materials left at the site.
- The Contractor will not be paid for an additional mobilization or demobilization beyond that which is bid in Item 1 of the Lump Sum bid table if they must return in 2020 to complete the works of the Contract.
- The Contractor shall ensure all walkways and accesses to the Train Station are made accessible and hard surfaced for safe public use and to allow for winter snow clearing by Parks Canada.

ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED
