SOLICITATION AMENDMENT No. 002

Annex A – Terms of Reference

Section 2.1 General Site Specific Requirements

INSERT:

2.1.1.10

The Selection's north boundary is not required to be cut and cleared. It adjoins the First Nations Selection to the North. The portion of this selection's south boundary along the road allowance is not required to be cut and cleared as the developed Government Road Allowance can be ancillary to a boundary

2.1.3.10

Cut and clear (in bush) and evidence by "IR" markers (in open areas), the selection boundary along the north limit of the South half of Sec 31-40-24 WPM, the quarter line (where exterior boundary) and the selection's easterly boundary where needed. Consult with First Nation Representative (Dan Soprovich) to help locate position of easterly boundary in relation to improvements (fence and cleared land). The selection's north and west proposed boundary in SE 1/4 Sec 36-40-25 WPM is common to existing future IR and the South limit of the selection is evidenced by the drain plan and they do not require cutting and clearing.

All other terms and conditions remain unchanged.
